RISK FACTORS

The purpose of this section is to enable a potential investor to assess the relevant risks related to their potential investment in the Bonds in order to make an informed investment decision. The risk factors set forth below are therefore limited to risks that are material and specific to the Issuer, the Guarantor, the Group and the Bonds.

The manner in which the Issuer, the Group and the Bonds are affected by each risk factor is illustrated by way of an evaluation of the materiality of the relevant risk factor based on the probability of it occurring and the expected magnitude of its negative impact, for the purpose of which the probability is estimated as “low”, “medium” or “high” and the magnitude of negative impact if it would occur as “low”, “medium” or “high”. The risk factors are grouped in certain categories and the most material risk factor in each category is presented first under that category. Subsequent risk factors in the same category are not ranked in order of materiality.

Regardless of whether the Issuer has estimated the probability of a risk factor occurring or the expected magnitude of its negative impact as “low”, “medium” or “high”, all risk factors included in this section have been assessed to be material and specific to the Issuer and/or the Bonds in accordance with the Prospectus Regulation.

Before making a decision to invest in the Bonds, any potential investor should carefully consider the risk factors outlined below, as well as evaluate external factors, and make an independent evaluation.

Risks relating to the Group’s business operations

COVID-19

The economies of the countries in which the Group operates may be negatively affected by an outbreak of any contagious disease with human-to-human airborne or contact propagation effects, such as COVID-19, that escalates into a regional epidemic or global pandemic. The occurrence of an epidemic or pandemic is beyond the Group’s control and the Group can provide no assurance on the future spread of COVID-19 or other contagious diseases in areas in which the Group operates, or what the impact on the Group’s business will be. As at the date of this Prospectus, concerns regarding COVID-19 have had an effect on the Group’s business that is not deemed material in the context of the Bonds. For instance, as has been common practice for real estate companies in 2020, two quarters of amortisations holidays have been obtained under two of the Group’s loan agreements this year in response to COVID-19 and the uncertainty about rental collections which remained strong (approximately 90 per cent. for 2020 year to date) despite tenant’s offices largely being closed. However, in the medium to long term, if the spread of COVID-19 is prolonged or further diseases emerge that give rise to similar macroeconomic effects, this may result in material and prolonged disruptions to the Group’s business, for example, the Group may face decreased levels of rent collection and increased defaults on rental obligations which will impact its ability to pay its interest costs on financial indebtedness, thereby reducing profitability. Furthermore, the COVID-19 pandemic has seen a general shift towards working from home and away from office-based working. If this becomes a permanent trend, the demand for office space may be reduced, thereby reducing demand for the Group’s properties in the office sector and pushing down the rental rates and accordingly the Group’s probability and revenues. Recent roll outs of COVID-19 vaccines being developed by Pfizer, Germany’s BioNTech, Astra Zeneca and Moderna, amongst others, have raised hopes that immunisation of the general population in developed economies by the end of 2021 may be feasible. However, there can be no assurance that production of such vaccines will be sufficient to achieve this goal and already delays in promised delivery schedules have been experienced by the EU, amongst others. There remains little certainty as to the prolonged effectiveness of such vaccines, particularly in the light of the mutation of the virus into new strains which existing vaccines may be less effective against, or potentially wholly ineffective. Investors should note the risk that the virus may therefore continue to affect the global economy for the foreseeable future and any current or future governmental or societal response to the virus may affect the Group’s business, and, if current levels of economic deterioration in the markets where the Group operates continue or worsen, as a result of COVID-19 or otherwise, the Group may experience a significant adverse impact on rental income and sale revenues and therefore its ability to service its payment obligations under the Bonds.

The Issuer considers that the probability of these risks occurring is medium. If these risks materialise, the Issuer considers the potential negative impact to be medium.

Geographical risks

The Group's investments are heavily concentrated on the United Kingdom ("UK") and Sweden through GMV Holdings Limited ("GMV") and Dooba Properties Limited which respectively hold the Group's investment in UK real estate and through Dooba Investments Limited which holds the Group's investment in ALM Equity AB (publ) ("ALM") in Sweden. The return on real estate investments differs between geographical markets within the UK and Sweden. Local events and factors affect the various geographical regions in which the Group has invested differently. The Group has invested in a well-diversified property portfolio with properties in different regions of the UK covering the office, industrial and residential real estate sectors but with a primary focus on office buildings with office rentals representing approximately 70 per cent. of revenue from the Group's UK property portfolio for the year ended 31 December 2020. ALM's investments are focused primarily on the Stockholm residential real estate market. There is a risk that demand declines in most or all geographical markets and that both rental rates and housing prices drop significantly in one or more subsectors, or that vacancies increase, any of which could have a significant impact on the Group's business through reduced revenues and/or profitability.

The Issuer considers that the probability of these risks occurring is medium. If these risks materialise, the Issuer considers the potential negative impact to be medium.

Macroeconomic factors

The Group's business is focused on every aspect of the real estate market including investing, refurbishment, planning, development, sale and letting. The real estate market is, to a large extent, affected by macroeconomic factors such as general economic development, growth, employment rates, legal, regulatory and other policy changes, changes in infrastructure, population growth, inflation, migration and interest rate levels, as well as the level of production and availability of new premises. Economic growth affects the employment rate, which is an essential basis for the supply of and demand for the commercial lettings and residential homes markets, as well as property market values. Lower demand for commercial property from tenants can result in lower rental prices and increased vacancy rates, both of which would be likely to impact the Group's earnings and profitability. A decrease in property market prices due to, for example, increased unemployment, financial instability or a contraction in the credit market in the UK, would be likely to result in a fall in the value of the Group's investments in property and therefore, impact the value of the assets on the Group's balance sheet negatively, and may affect earnings and even result in a loss if the Group is unwilling to sell at a lower market or even unable to sell at all.

Inflation expectations have an impact on the interest rate and thus affect the net interest income of the Group. Interest expenses on debt to credit institutions are the Group's single largest cost item. In the long term, interest rate changes will therefore have a significant impact on the Group's net earnings and cash flow. Changes in inflation can also impact the Group's costs. Furthermore, changes in interest rates and inflation also impact yield requirements and accordingly the market value of the properties across the Group's investment structures.

Whilst some of the Group's leasing arrangements are indexed in whole or in part to the Retail Price Index ("RPI"), those that are not present a risk of being adversely impacted when subject to upward inflationary pressure. As a significant portion of the Group's leasing arrangements are not linked to RPI, in the event of increased inflation, it would have a negative impact on the Group's profitability, particularly given the upward pressure on costs.

The Issuer considers that the probability of these risks occurring is low. If these risks materialise, the Issuer considers the potential negative impact to be low.

Brexit

A large part of the Group's business, assets and investments are focused on the UK real estate market, and accordingly any shocks to the UK economy will have a significant effect on the Group.

On 24 December 2020, the EU and the UK announced the reaching of an agreement on a trade and cooperation agreement (the "TCA"), to provide a structure for EU and UK cooperation in the future, which has provisionally

applied from the formal exit of the UK from the EU on 1 January 2021 pending formal ratification by the UK and the EU. Ratification by the EU will require the approval of the European Parliament and should such formal ratification have not occurred, the provisional application of the TCA shall cease on 30 April 2021, although a later date may be agreed. The absence of such formal ratification of the TCA (or absence of an agreement for the provisional application of the TCA to cease at a later date) may create significant political, social and macroeconomic uncertainty. Although the TCA provides a structure for EU and UK cooperation in the future, it may lead to further or reduced cooperation in different areas. As the details of the TCA begin to unfold and as a result of the ongoing political uncertainty as regards the structure of the future relationship between the UK and the EU, the precise impact on the business of the Group, including as a result of the TCA, is difficult to determine. As such, no assurance can be given that such matters would not adversely affect the ability of the relevant Issuer to satisfy its obligations under the Notes and/or the market value and/or the liquidity of the Notes in the secondary market. In addition, the UK's decision to withdraw from the EU has also given rise to calls for the governments of other EU member states to consider withdrawal.

These developments, or the perception that any of them could occur, have had and may continue to have a material adverse effect on global economic conditions and the stability of global financial markets, and may significantly reduce global market liquidity and restrict the ability of key market participants to operate in certain financial markets, which could in turn depress economic activity and restrict the Group's access to capital. It is not possible to determine the impact that the UK's departure from the EU and/or any related matters may have on the stability of the Eurozone or the EU and, ultimately, on the business of the Group. As such, no assurance can be given that such matters would not adversely affect the Group, in particular through a significant impact on rental rates as well as property prices, thereby negatively affecting the Group's earnings, assets and investments.

The Issuer considers that the probability of these risks occurring is medium. If these risks materialise, the Issuer considers the potential negative impact to be medium.

Risks relating to the Group's direct investments

Transactions

The Issuer is continuously acquiring and investing in additional properties as part of its ordinary business. Acquisitions and investments are associated with uncertainties, such as loss of tenants, environmental circumstances and technical problems and therefore involve risks. Prior to an investment, a due diligence exercise is undertaken that aims to identify, and if possible, to mitigate the risks that might be associated with the proposed investment. There is a risk that properties that are added through acquisitions, or equity investments in funds investing in real estate do not result in the anticipated positive return or have hidden costs associated with them and, as such, may have a negative impact on the Group's earnings and financial position. Further, the Group's divestments involve uncertainties regarding, *inter alia*, the ability to find purchasers who are willing to pay the price that the Group expects or requires to make a profit and that claims under the sale agreements may be directed against the Group due to issues in respect of the property sold.

Accordingly, the above could result in write downs in the value of such investments on the Group's balance sheet as well as reducing (potentially to zero) any income from such investments, potentially reducing the Group's cash flow and liquidity. Any significant decrease in such income streams could adversely impact the Issuer and the Guarantor's ability to meet their payment obligations under the Bonds. Decreases in the valuation of the Group's holdings in its investment in ALM could equally reduce the likelihood of investors recouping their investment in the Bonds in a default scenario.

Further, there is a risk that a seller, in connection with an acquisition, may not fulfil its contractual obligations due to financial difficulties, which may affect the Group's ability to bring claims for compensation according to contractual indemnities or warranties. The materialisation of this risk could have a negative impact on the Group's earnings and financial position.

The Issuer considers that the probability of these risks occurring is low. If these risks materialise, the Issuer considers the potential negative impact to be medium.

Project risks

The operations of the Group also comprise property development projects. As of 31 December 2020, the value of the Group's properties under construction, residential projects in progress and development properties amounted to GBP 141.8m. Consequently, the Group is dependent on its ability to develop such properties in a profitable way. Returns from the Group's development properties depend to a large extent on, *inter alia*, the Group's ability to source contractors and materials and complete development works so as to bring to market the relevant properties for letting or sale and on the extent of the costs and expenses incurred in the development of the properties as well as upon changes in their market value. If the Group is not able to complete lettings or disposals of the developed properties in a profitable and timely way, it may negatively affect the Group's earnings and in turn the Group's financial position and operations.

The Group's development projects are also subject to risks relating to, *inter alia*, faulty construction, delays in completion, risks relating to property development, the ability to obtain planning permissions and building rights, environmental risks, contractor and supplier insolvency, political policy change risks, site risks, the risk of being exposed to or being involved in corrupt behaviour, etc. In the event the Group's projects are delayed, this may also lead to partners and others with whom the Group has entered into agreements in connection with the letting or development of land claiming damages or contractual penalties from the Group, which may negatively affect the Group's profit margins. Moreover, in these types of projects the construction costs may escalate during the time of the project e.g. due to miscalculations with regard to the budget, increases in material costs, unexpected delays in the delivery of materials, inability to get on site (e.g. due to COVID-19 lockdowns) other construction challenges or other factors outside the Group's control. Misjudging investment decisions, mismanagement of projects and failure to comply with relevant laws and regulations are additional risks (although not a comprehensive list of such) associated with the Group's business model and the projects.

Successfully completed projects are to a large extent dependent on market demand and willingness of purchasers to fund (and source financing to fund) the letting or acquisition of investment properties and residential units. The willingness to pay is, among other things, dependent on to what extent the availability of properties correspond to the market demand, activity on the commercial property and housing market, and the price trends in office space, industrial property and housing as well as demographic factors, such as businesses willingness to be based in a certain location as well as individuals and families moving to and from the locations covered by the Group's properties. Furthermore, the ability to pay is affected by investors' and customers' ability to obtain debt financing, which, in turn, is affected by their ability to pay interest rates and required amortisation, as well as due to limits on lender appetite for maximum loan to value ratios.

If the demand for the Group's development projects decreases, it could result in delayed or cancelled projects which may negatively affect the Group's earnings and in turn the Group's financial position and operations.

It should be further noted that some of the Group's operations involve a high level of complexity due to several counterparts and larger projects may also entail major investments in both the planning and development phases, which may lead to an increased credit risk should contractors, suppliers, financiers or tenants be unable to fulfil their obligations towards the Group, and the Group in turn may be unable to find other contractors, suppliers, financiers or tenants, or demand for, or the value of, the property may alter during the project. In the event of the above, there is a risk that this will have a negative impact on the earnings and profitability.

The Issuer considers that the probability of these risks occurring is low. If these risks materialise, the Issuer considers the potential negative impact to be low.

Risks relating to the Group's indirect investments

Risks in investing in companies/vehicles where the Group does not have decisive influence

As described further below in "*Dependency on Group Companies*", the Issuer is dependent on the earnings of the other companies within the Group and the operations of the Group as well as returns on its investments in ALM and co-investment in the Anglo Scandinavian Estate ("**ASE**") funds in which the Group does not hold a majority stake or otherwise have control in terms of decision making. Consequently, there is a risk that majority shareholders in respect of these investments could make decisions that are not in the best interest of the holders

of the Bonds (the “**Bondholders**”) and/or they could have different expectations and requirements in terms of timescales and parameters for returns and a risk appetite which may not align with the Group’s expectations, strategy and plans for fulfilling their obligations to the Bondholders.

Accordingly, there is a risk that decisions regarding the Group’s investments may be taken over which the Group has no control and which may be detrimental to the revenue generated from such investments or their valuation and accordingly affect the Group’s revenues and return on investments. Any materialisation of such risk, particularly in relation to the investments in the ASE funds, affecting the returns of the Group from which the Issuer intends to service its payment obligations under the Bonds, may have a significant impact on the ability of the Issuer and the Guarantor to meet their respective payment obligation under the Bonds.

Furthermore, the companies and assets in which the Group invests may be subject to security which upon an insolvency might significantly affect the Group’s ability to recover any or all value of such investments.

The Issuer considers that the probability of these risks occurring is low. If these risks materialise, the Issuer considers the potential negative impact to be low.

Risks relating to the Group’s financial condition and financing

Rental income and rental development

Decreased occupancy rates and rental rates will, regardless of reason, negatively affect the Group’s earnings. The risk of greater fluctuations in vacancies and loss of rental incomes increases with the number of single large tenants a real-estate company has. Currently the Group’s 10 largest tenants represent 53.0 per cent. of the rental income of the Group. There is a risk that the Group’s larger tenants do not renew or extend their lease agreements when these have expired, which in the long term could lead to a decrease in rental incomes and an increase in vacancies and therefore could have a significant impact on the Group’s revenues and cash flow.

Furthermore, the Group is dependent on its tenants paying their rents on time. While the proportion of rent collected within 14 days or less of the due date was 89 per cent. for the year ended 31 December 2020 and the average final collection rate was 99 per cent. for the same period, the Group’s earnings could be impacted negatively if tenants face financial difficulty or become insolvent, stop their rental payments for any reason, or do not fulfil their obligations in other ways.

The Issuer considers that the probability of these risks occurring is low. If these risks materialise, the Issuer considers the potential negative impact to be high.

Risks related to the valuation and return of the Group’s investments

The valuation of the Group’s investments and co-investments at fair value is based on international valuation guidelines that are widely used and accepted within the industry and among investors. Changes in fair values of the investments and co-investments may have a significant impact on the Group’s results. Forecasting fair values of target investments and their movements is extremely difficult and is based on the market situation at the time of valuation and assumptions regarding the future development of target investments, which might be inaccurate and which might not materialise as expected or at all. The net asset value of the Group’s investments and co-investments is determined on the basis of actual values. As with fair values, the actual value may change. Therefore, both changes in fair values and actual values of Group’s investments and co-investments may have a significant impact on the Group’s financial condition. In addition, the realised profit of an investment may deviate significantly from the valuation done at any given time. Therefore, changes in fair values may cause significant changes in the Group’s result over different reporting periods, which in turn could negatively affect the Guarantor’s and/or the Group’s business, financial condition, results of operations and future prospects and, thereby, the Issuer’s ability to fulfil its obligations under the Bonds as well as the market price and value of the Bonds.

Furthermore, the revenue received from the Group’s investments is uncertain and is subject to the performance of the underlying assets, decisions or distributions/payments of coupons on loan agreements that are not all factors under the control of the Group for the reasons outlined above. While the revenue flow from such

investments has been consistent historically and is anticipated to continue in levels sufficient to enable the Issuer and the Guarantor to fulfil their obligations under the Bonds, there is a risk that such revenue is not forthcoming in the future which would have a significant impact on the Group's cash flow, liquidity and potentially, if not covered by other sources of income such as the GMV portfolio, the Issuer and the Guarantor's ability to meet their respective payment obligations under the Bonds.

In addition, revenue generated from such investments is periodic (focused around the UK usual rent payment quarter days in March, June, September and December) and therefore may leave the Group with liquidity issues at certain times of the year. The timing for payments under the Bond has been set to coincide with the times when liquidity will be at its highest, just following the rent payment dates across the portfolio and existing cash flow projections show the Issuer will be able to meet its obligations under the Bonds comfortably. However, if the Group is required to meet unforeseen costs at a time when payments are due under the Bonds, which do not align with revenues from investments, the Group could suffer liquidity issues temporarily, which may impact the Issuer's ability to meet its payment obligation under the Bonds.

The Issuer considers that the probability of these risks occurring is low. If these risks materialise, the Issuer considers the potential negative impact to be low.

Operating and maintenance costs

Operating costs consist mainly of tariff-based costs such as costs for electricity, sanitation, water and heating. The costs for electricity and heating have an impact on the Group's results. To the extent increases in such costs are not recovered by on-charging to tenants, the Group's net operating income may be impacted negatively. Furthermore, these costs continue to apply in the event of vacancies, resulting in the costs being paid in full by the Group. To the extent that such vacancies are long-term, this additional cost can have a significant impact on the cash flow and profitability of the Group.

Maintenance costs are attributable to actions that intend to maintain the property's long-term standard and in order to comply with market, governmental and legal requirements. The Group has a plan for the implementation of maintenance measures that are deemed necessary. Unexpected and large renovation needs may however lead to significant unforeseen costs which may affect the Group's revenues and cash flow negatively.

The Issuer considers that the probability of these risks occurring is low. If these risks materialise, the Issuer considers the potential negative impact to be low.

Currency risks

Currency fluctuations may impact the Group's financial performance from time to time. The Group reports its consolidated financial results in GBP. The Bonds are denominated in SEK and one part of the maintenance test (the cash covenant) relates to cash held by the Issuer in SEK. Furthermore, the investment in ALM is in SEK and pays out dividends in SEK. However, the equity ratio, which is tested on a quarterly basis in connection with incurrence of specific permitted debt (amongst other things), is calculated with GBP figures derived from the Group's financial reports. The exchange rates between SEK and GBP have fluctuated in recent years and may fluctuate significantly in the future. The Group could be adversely affected by future unfavourable shifts in currency exchange rates. The Group does not hedge its exposure to currency fluctuations, and as a consequence any fluctuations in exchange rates and currencies could have a negative effect on the cash flows of the Group, which could negatively impact the Group's financial results.

The Issuer considers that the probability of these risks occurring is low. If these risks materialise, the Issuer considers the potential negative impact to be low.

Refinancing risks

Refinancing risk is the risk that financing required to refinance existing debt obligations may not be obtained when required at or prior to, the maturity of such existing debt obligations or could only be obtained at significantly increased costs. As at 31 March 2021 the Group had approximately GBP 233 million in outstanding financial indebtedness to commercial banks, the current bond and other lenders, of which GBP 50 million was

represented by the existing Bonds. The Group has recently refinanced both its investment property facilities. Although the Group today estimates that the refinancing risk is small, there is still a risk that future refinancing is not possible at all or is not possible on terms that are commercially viable for the Group. In case the Group is unable to refinance existing facilities or obtain additional financing at market terms, as a result of an insufficient supply in the capital market or for any other reason, large amounts of debt could become due without replacement financing which may put a significant strain on the Group's liquidity position and balance sheet in general, and could potentially lead to a default and the potential insolvency of the certain members of the group, thereby having a significant adverse impact on the Issuer and the Guarantor's ability to meet their payment obligations under the Bonds.

The Issuer considers that the probability of these risks occurring is low. If these risks materialise, the Issuer considers the potential negative impact to be high.

Changes in value of interest derivatives

All of the Group's existing credit agreements (referred to above under "Refinancing risks") accrue interest on a floating rate basis. As part of managing the risk of adverse fluctuations in interest rates, the Group uses interest derivatives, mainly interest rate swaps. The interest rate derivatives are recorded continuously at actual value in the balance sheet and stated as value changes in the income statement. As market interest rates change, a theoretical over or undervalue of the interest derivatives occur but have no impact on the cash flow. The derivatives protect against higher interest rate levels, but also imply that the market value of the Group's interest derivatives decreases if the market interest rates decrease, the latter would accordingly have a negative impact on the Group's financial position and earnings.

The Issuer considers that the probability of these risks occurring is low. If these risks materialise, the Issuer considers the potential negative impact to be low.

Changes in value of properties

The Group's real estate investments are recorded in the balance sheet at actual value and the value changes are recorded in the income statement. Unrealised value changes have no impact on the cash flow. The Group performs a valuation of the entire property holdings on an annual basis. The Group intends to conduct a full external evaluation on the majority of the portfolio by value before the end of the year. Further external evaluation is conducted whenever any new loan facilities or refinancing takes place and will be required to be conducted on a half yearly basis under the tenor of the Bonds. The Group's properties' loan to value ratio was 45 per cent. as of 31 December 2020.

The value of the properties is affected by a number of factors, partly by property specific factors such as occupation levels, rental rates and operating costs and partly by market specific factors such as yield demands and cost of capital that are derived from comparable transactions on the real estate market. Property related deteriorations such as lower rental income and increased vacancies could cause the Group to have to write down the actual value of its investment properties, which could have a negative impact on the Group's earnings and financial position. If the value of the properties in the portfolio declines, other things being equal, the surplus value between the assets and the debt against the portfolio decreases. Less surplus value, i.e. high loan-to-property-value ratio, may imply that the probability of recovering the full investment amount in the Bonds in an event of default situation would be lower than in a situation with high surplus value, i.e. low loan-to-property-value ratio.

Furthermore, changes in property values has a direct impact on the valuation of the Group's investment in ALM and its co-investments in the ASE funds. Significant long term deterioration in property values would be likely to lead to write downs in the value of such investments on the Group's balance sheet as well as reducing (potentially to zero) any dividends from such investments and meaning that coupons on loans or equity interests which are contractually due from the ASE funds may be unpaid or need to be deferred or rolled up, thus potentially reducing the Group's cash flow and liquidity. Any significant decrease in such income streams could adversely impact the Issuer and the Guarantor's ability to meet their payment obligations under the Bonds. Decreases in the valuation of the Group's holdings in such investments could equally reduce the likelihood of investors recouping their investment in the Bonds in a default scenario.

The Issuer considers that the probability of these risks occurring is low. If these risks materialise, the Issuer considers the potential negative impact to be medium.

Legal, environmental and regulatory risks

Environmental risks

Investments in real estate carry with them risks relating to both environmental catastrophes, potential remediation claims/costs and a changing and ever stricter environmental regulatory regime.

Environmental catastrophes, such as floods and fires, can damage or destroy properties, or make them uninhabitable for long periods of time. While the Group insures all its properties, any such damage, as well as the lost revenues from rental or sales income, may not be fully covered or at all by existing insurance. Increased costs and lost revenues as a result of any such damage could have a significant impact on the Group's earnings as well as the value of its assets.

Property management has an environmental impact. Claims may be raised against the Group for soil remediation or for other environmental remediation concerning the presence or suspicion of pollution in soil, water areas or ground water, requiring the Group to ensure its property portfolio across its various geographical regions meets the standards required by the environmental code in that specific country. The Group has not performed any exhaustive investigation of all possible environmental pollution in the property portfolio but estimates that neither existing nor previous business activities at the properties have entailed any environmental risks that substantially could affect the Group's financial position. However, certain of the Group's developments are of properties that were previously used for purposes that may have had an environmental impact e.g. industrial or military use. Any future claims for remediation in relation to current or past pollution would be likely to result in significant, unforeseen costs, and would be likely to have an adverse impact on the Group's earnings and cash flow.

Furthermore, increased regulation in relation to the environmental requirements (such as requirements on energy efficiency and carbon emissions of properties) may result in significant increases in costs for the Group, including requirements to refurbish older, less efficient properties, which could lead to unexpected costs and periods of vacancy for rental properties, any of which would lead to reduced profitability and revenue for the Group.

The materialisation of any of the above risks would likely put a significant strain on the Group's cash flow and thereby the Issuer and the Guarantor's ability to meet their payment obligations under the Bonds.

The Issuer considers that the probability of these risks occurring is low. If these risks materialise, the Issuer considers the potential negative impact to be low.

Legal risks

The Group's business is regulated by and must be conducted in accordance with, several laws and regulations, detailed development plans, building standards and security regulations etcetera.

The Issuer is a Swedish incorporated public liability company and the Guarantor is a Cyprus incorporated, Malta tax resident, limited company. CEG is governed by the laws of England and Wales and the Terms and Conditions are governed by the laws of Sweden.

Even if the Group's business is conducted in accordance with its interpretation of laws and regulations, there is a risk that the interpretation thereof may be incorrect or may change in the future. The Group may also be required to apply for various permissions (including planning) and registrations with authorities in order to pursue property development. There is a risk that the Group will not be granted necessary permits or other decisions for its business activities or that such permits or decisions are appealed, which may result in increased costs of, and delay in, the planned development of properties or otherwise have a negative impact on the conduct and development of its business.

New laws or regulations, or changes concerning the application of existing laws or regulations that are applicable to the Group's business activities or the tenants' business activities could have a negative impact on the Group's earnings and financial position.

Moreover, there are significant differences in the political parties' view on the size and occurrence of taxes and subsidies. There is always a risk that tax rates are changed in the future or that other changes of regulation occur which affect the ownership of real estate assets or real estate transactions. If such changes materialise, it could have a negative impact on the Group's business, earnings and financial position.

The Issuer considers that the probability of these risks occurring is low. If these risks materialise, the Issuer considers the potential negative impact to be low.

Processing of personal data

The Group processes personal data about *inter alia* its employees and customers. The Issuer, the Guarantor and the Group are subject to data protection and privacy laws (including but not limited to the General Data Protection Regulation (2016/679) ("GDPR")). The Guarantor's and/or the Group's non-compliance or deemed non-compliance with any of these other laws and regulatory requirements may result in fines, claims in damages from individuals and injunctions from supervisory authorities to effect rectification that could have an adverse effect on the Guarantor's and/or the Group's business and financial condition and therefore the Issuer and the Guarantor's ability to meet their respective payment obligations under the Bonds or the Guarantee as well as the market price of the Bonds.

Since GDPR was adopted in May 2018, the likelihood that the Guarantor and the Group has failed to adapt its operations in accordance with the requirements set out in the GDPR and therefore the probability of a negative effect would be low. However, if the Group were to be found to be in violation, then for severe violations of the GDPR, the fine framework can be up to EUR 20,000,000, or in the case of an undertaking, up to 4 per cent. of the total global turnover of the preceding fiscal year, whichever is higher. For less severe violations of the GDPR, the fines amount to up to EUR 10,000,000, or, in the case of an undertaking, up to 2 per cent. of the entire global turnover of the preceding fiscal year, whichever is higher. If the above risk were to materialise, the Group would incur significant costs which would negatively impact the Group's cash flow, which in turn could to a limited extent negatively affect the Issuer and the Guarantor's ability to meet their respective payment obligations under the Bonds or the Guarantee as well as the market price of the Bonds.

Furthermore, since the UK's exit from the EU, if the European Commission does not adopt an adequacy decision for the UK during the grace period under the TCA, an international transfer mechanism under GDPR is required for data transfers from the EEA to the UK. The Group would in such an event need to adopt legal safeguards with respect to the transfer to, and processing by, the Group of personal data relating to individuals located in the EU. This may result in significant additional expense and potentially increased compliance risk.

The Issuer considers that the probability of these risks occurring is low. If these risks materialise, the Issuer considers the potential negative impact to be low.

Risks relating to the Bonds

Priority rights

The Bonds constitute direct, unconditional, unsecured and unsubordinated obligations of the Issuer and rank at least *pari passu* with other unsecured and unsubordinated obligations of the Issuer. This means that a bondholder in the event of the Issuer's liquidation, company reorganisation or bankruptcy, normally would receive payment after any prioritised creditors (e.g. lenders or investors that have the benefit of security) have received payment. Each investor should be aware of the fact that there is a risk they may lose the whole, or part of, their investment in the event of the Issuer's liquidation, bankruptcy or company reorganisation.

While there are negative pledge restrictions on the Issuer, the Guarantor and the companies holding the Group's investments in ALM and co-investments in the ASE funds, there are no restrictions on GMV's subsidiaries securing properties owned at that level, thereby giving their claims priority over those of the Bondholders in

any enforcement scenario. As at 31 December 2020, GMV's portfolio of properties were valued at approximately GBP 395.0 million, of which approximately GBP 395.0 million was secured in favour of bank creditors under share pledges and mortgages over the properties. The Issuer also intends to continue seeking appropriate and attractive financing and may in connection thereto grant security for such financing (which may include secured capital markets financing). Accordingly, in an insolvency situation the value of those properties could fall and the Bondholders would rank behind secured creditors in respect of the full amount of secured debt, in addition to being structurally subordinated to any unsecured creditors of the subsidiaries at that level. If the value of the property portfolio were to fall significantly, this could therefore have an adverse impact on the ability of the Bondholders to recover the value of their investment in part or at all.

The Issuer considers that the probability of these risks occurring is low. If these risks materialise, the Issuer considers the potential negative impact to be low.

Structural subordination and insolvency of subsidiaries

The Bonds constitute structurally subordinated liabilities of the Issuer, meaning that creditors' claims against the Guarantor and/or a Group Company are entitled to payment out of the assets of such company before the Issuer. The Group Companies are legally separate entities and distinct from the Issuer, and have no obligation to settle or fulfil the Issuer's obligations, except as set out in the Guarantee. The financial structure within the Group is rather complex and comprises of holding structures, where debt on several levels, such as senior and mezzanine debt, is incurred. In the event of insolvency of another Group Company, there is a risk that the Guarantor and its assets investments and financial position are affected by actions of the creditors of companies within the Group who claim repayment at that level and have priority to the Bondholders' claims and negatively affect the Issuer and the Guarantor's ability to meet their respective payment obligations under the Bonds or the Guarantee.

The Issuer considers that the probability of these risks occurring is low. If these risks materialise, the Issuer considers the potential negative impact to be low.

Dependency on Group Companies

Neither the Issuer nor the Guarantor hold any significant assets (other than, in the case of the Guarantor, the shares in the Group Companies). The Issuer is entirely reliant on the Guarantor's receipt of contributions, exit proceeds, dividends, other distributions, and interest on intra-group loans made by it to other Group Companies, and their direct and indirect subsidiaries, sufficient to fulfil its payment obligations under the Terms and Conditions of the Bonds. The ability of the Group Companies to make such payments to the Issuer is subject to, among other things, the profitability the Group Companies and/or the funds available therefrom, as well as legal or contractual restrictions on transferring cash. Any significant decrease in the earnings of Group Companies or restrictions on intra-group payments could negatively affect the Issuer and the Guarantor's liquidity and therefore their ability to fulfil their respective obligations under the Bonds and the Guarantee, as well as the market price and value of the Bonds.

The Issuer considers that the probability of these risks occurring is low. If these risks materialise, the Issuer considers the potential negative impact to be low.

Equity investments

The Group invests in shares of listed companies, with its main shareholding being in ALM. As at 31 December 2020 the Group's shareholding in ALM was valued at approximately GBP 63 million and the Group was at that time the third largest shareholder in ALM. ALM is the holding company of a Swedish real estate group that develops and invests in companies in the real estate sector through independent subsidiaries and brands within its five business segments: property management, project development, construction, financing and digital services. The ordinary shares and preference shares of ALM are listed on the Nasdaq First North Growth market.

Co-investments

The Group established its first co-investment structure, ASE, together with the Swedish national pension funds AP1 and AP4 in 2012. The ASE assets are held in three separate joint ventures: ASE I, ASE II, and ASE III, which all focus on office and industrial properties in the UK. The properties are located in nine big regional cities in the UK and as at the date of this Prospectus, the portfolio includes 36 properties. As at 31 December 2020, the Group's investments in the ASE co-investment clubs had a total value of approximately GBP 75 million.

Direct property holdings

The Group's direct property holdings are primarily held by GMV with a focus on office and industrial properties located in regional cities and larger towns in the UK. The Group targets deals where value can be created through improved management, capital expenditure, project management and change of use. "Problem" buildings are identified where other investors have neither the skill set nor experience of the Group's property manager, CEG, to turn such "problem" buildings into profitable investments. As per the date of this Prospectus, the GMV portfolio includes 14 properties together with interests via various promotion and option agreements in respect of strategic land sites. As at 31 December 2020, the Group's property assets (majority ownership) had a combined value of GBP 395 million.

Property management (CEG)

CEG is the property management arm of the Group and group-wide property manager across all of the Group's real estate investments including those via the ASE funds. CEG draws upon its team of 114 experts, with experience and critical industry relationships formed over 30 years of operations. In total CEG currently has 156 employees across offices in London, Leeds and Cornwall. Over the 20 year period up until December 2020, CEG has managed a portfolio that has grown from GBP 80 million to over GBP 900 million and distributed approximately GBP 241 million from the ASE co-investment clubs to investors.

Operating History

Versteegh PLC was established in 1985 (later known as Dooba Holdings Group).

CEG was established in 1989 by Chairman Gerard Versteegh and was joined by Andrew Woods in 1991.

Gerard Versteegh started acquiring shares in ALM in 2006 (of which the Group now is the third largest shareholder).

In June 2012 the Group established its first co-investment structure ASE I together with the Swedish national pension funds AP1 and AP4. The ASE II structure was established in May 2014 and the ASE III structure was established in September 2016.

The Issuer was established in 2016 in preparation for the issuance of the Group's previous bonds.

The Initial Bonds were issued by the Issuer on 27 October 2020.

The Subsequent Bonds were issued by the Issuer on 29 March 2021.

Recent Events

COVID-19

Rental collections have remained strong throughout 2020 as evidenced by the financial results of the Group as at and for financial year ending 31 December 2020. However, in general, the COVID-19 pandemic has had a negative impact on the financial stability of tenants which may result in increased monthly payments, delayed payments and/ or payment defaults by existing tenants, as well as increased reliance on sureties and tenant insolvency/defaults. The Group has observed changes in appetite for office space and a shift in property occupation trends and newly implemented working from home policies.

The COVID-19 pandemic may result in challenges in being able to obtain financing for new developments and refinancing/extending current bank debt although the Group is currently well progressed in discussions with its existing and new lenders about refinancing of existing facilities and the procurement of new facilities to fund the development of sites. This may have a further impact on the Group's ability to commence and complete development projects within agreed timescales/milestones and/or to meet contracted development/capital expenditure obligations.

The market-wide impact on property values and the rents commanded, thus affecting the Group's yields and ability to borrow against the existing portfolio. The COVID-19 pandemic also causes increased costs for landlords due to adhering to health and safety procedures, one-way systems, reduced desk capacity, capacity limits and tenant requirements relating to social distancing in the workplace.

Refinancing

Since the First Issue Date the Group has successfully refinanced two of its investments facilities for a total aggregate amount of GBP 136 million.

Credit Rating

There is currently no credit rating available for the Bonds. Furthermore, neither the Issuer nor the Guarantor have been assigned a credit rating.

Each Bondholder must ensure compliance with such restrictions at its own cost and expense.
- 2.7 No action is being taken in any jurisdiction that would or is intended to permit a public offering of the Bonds or the possession, circulation or distribution of any document or other material relating to the Issuer or the Bonds in any jurisdiction other than Sweden, where action for that purpose is required. - 16.5 The Agent shall, within twenty (20) Business Days of the date on which the Agent received actual knowledge that an Event of Default has occurred and is continuing, decide if the Bonds shall be so accelerated. If the Agent decides not to accelerate the Bonds, the Agent shall promptly seek instructions from the Bondholders in accordance with Clause 18 (*Decisions by Bondholders*).
- 16.6 If the Bondholders instruct the Agent to accelerate the Bonds, the Agent shall promptly declare the Bonds due and payable and take such actions as may, in the opinion of the Agent, be necessary or desirable to enforce the rights of the Bondholders under the Finance Documents, unless the relevant Event of Default is no longer continuing.
- 16.7 If the right to accelerate the Bonds is based upon a decision of a court of law, an arbitral tribunal or a government authority, it is not necessary that the decision has become enforceable under any

applicable regulation or that the period of appeal has expired in order for cause of acceleration to be deemed to exist.

16.8 In the event of an acceleration of the Bonds in accordance with this Clause 16, the Issuer shall redeem all Bonds at an amount per Bond as specified in Clause 10.3 (*Voluntary total redemption*), together with accrued but unpaid Interest.

17. DISTRIBUTION OF PROCEEDS

17.1 All payments by the Issuer relating to the Bonds and the Finance Documents following an acceleration of the Bonds in accordance with Clause 16 (*Acceleration of the Bonds*) and any proceeds received from an enforcement of the Guarantee shall be distributed in the following order of priority, in accordance with the instructions of the Agent:

- (a) *first*, in or towards payment *pro rata* of (i) all unpaid fees, costs, expenses and indemnities payable by the Issuer to the Agent in accordance with the Finance Documents (other than any indemnity given for liability against the Bondholders), (ii) other costs, expenses and indemnities relating to the acceleration of the Bonds, the enforcement of the Guarantee or the protection of the Bondholders' rights as may have been incurred by the Agent, (iii) any costs incurred by the Agent for external experts that have not been reimbursed by the Issuer in accordance with Clause 20.2.5, and (iv) any costs and expenses incurred by the Agent that have not been reimbursed by the Issuer in accordance with Clause 18.4.11, together with default interest in accordance with Clause 9.4 on any such amount calculated from the date it was due to be paid or reimbursed by the Issuer;
- (b) *secondly*, in or towards payment *pro rata* of accrued but unpaid Interest under the Bonds (Interest due on an earlier Interest Payment Date to be paid before any Interest due on a later Interest Payment Date);
- (c) *thirdly*, in or towards payment *pro rata* of any unpaid principal under the Bonds; and
- (d) *fourthly*, in or towards payment *pro rata* of any other costs or outstanding amounts unpaid under the Finance Documents, including default interest in accordance with Clause 9.4 on delayed payments of Interest and repayments of principal under the Bonds.

Any excess funds after the application of proceeds in accordance with paragraphs (a) to (d) above shall be paid to the Issuer.

17.2 If a Bondholder or another party has paid any fees, costs, expenses or indemnities referred to in Clause 17.1(a) such Bondholder or other party shall be entitled to reimbursement by way of a corresponding distribution in accordance with Clause 17.1(a).

17.3 Funds that the Agent receives (directly or indirectly) in connection with the acceleration of the Bonds or the enforcement of the Guarantee constitute escrow funds (Sw. *redovisningsmedel*) and must be held on a separate bank account on behalf of the Bondholders and the other interested parties. The Agent shall arrange for payments of such funds in accordance with this Clause 17 as soon as reasonably practicable.

17.4 If either the Issuer or the Agent makes any payment under this Clause 17, the Issuer or the Agent, as applicable, shall notify the Bondholders of any such payment at least ten (10) Business Days before the payment is made. The notice from the Issuer shall specify the Redemption Date and also the Record Date on which a person shall be registered as a Bondholder to receive the amounts due on such Redemption Date. Notwithstanding the foregoing, for any Interest due but unpaid, the Record Date specified in Clause 8.1 shall apply.

18. DECISIONS BY BONDHOLDERS

18.1 Request for a decision

- 18.1.1 A request by the Agent for a decision by the Bondholders on a matter relating to the Finance Documents shall (at the option of the Agent) be dealt with at a Bondholders' Meeting or by way of a Written Procedure.
- 18.1.2 Any request from the Issuer or a Bondholder (or Bondholders) representing at least ten (10) per cent. of the Adjusted Nominal Amount (such request shall, if made by several Bondholders, be made by them jointly) for a decision by the Bondholders on a matter relating to the Finance Documents shall be directed to the Agent and dealt with at a Bondholders' Meeting or by way a Written Procedure, as determined by the Agent. The person requesting the decision may suggest the form for decision making, but if it is in the Agent's opinion more appropriate that a matter is dealt with at a Bondholders' Meeting than by way of a Written Procedure, it shall be dealt with at a Bondholders' Meeting.
- 18.1.3 The Agent may refrain from convening a Bondholders' Meeting or instigating a Written Procedure if (i) the suggested decision must be approved by any person in addition to the Bondholders and such person has informed the Agent that an approval will not be given, or (ii) the suggested decision is not in accordance with applicable regulations.
- 18.1.4 The Agent shall not be responsible for the content of a notice for a Bondholders' Meeting or a communication regarding a Written Procedure unless and to the extent it contains information provided by the Agent.
- 18.1.5 Should the Agent not convene a Bondholders' Meeting or instigate a Written Procedure in accordance with these Terms and Conditions, without Clause 18.1.3 being applicable, the Issuer or the Bondholder(s) requesting a decision by the Bondholders may convene such Bondholders' Meeting or instigate such Written Procedure, as the case may be, instead.
- 18.1.6 Should the Issuer want to replace the Agent, it may (i) convene a Bondholders' Meeting in accordance with Clause 18.2 (*Convening of Bondholders' Meeting*) or (ii) instigate a Written Procedure by sending communication in accordance with Clause 18.3 (*Instigation of Written Procedure*). After a request from the Bondholders pursuant to Clause 20.4.3, the Issuer shall no later than ten (10) Business Days after receipt of such request (or such later date as may be necessary for technical or administrative reasons) convene a Bondholders' Meeting in accordance with Clause 18.2 (*Convening of Bondholders' Meeting*). The Issuer shall inform the Agent before a notice for a Bondholders' Meeting or communication relating to a Written Procedure where the Agent is proposed to be replaced is sent and supply to the Agent a copy of the dispatched notice or communication.
- 18.1.7 Should the Issuer or any Bondholder(s) convene a Bondholders' Meeting or instigate a Written Procedure pursuant to Clause 18.1.5 or 18.1.6, then the Agent shall no later than five (5) Business Days' prior to dispatch of such notice or communication be provided with a draft thereof. The Agent may further append information from it together with the notice or communication, provided that the Agent supplies such information to the Issuer or the Bondholder(s), as the case may be, no later than one (1) Business Day prior to the dispatch of such notice or communication.

18.2 Convening of Bondholders' Meeting

- 18.2.1 The Agent shall convene a Bondholders' Meeting by way of notice to the Bondholders as soon as practicable and in any event no later than five (5) Business Days after receipt of a complete notice from the Issuer or the Bondholder(s) (or such later date as may be necessary for technical or administrative reasons).

- 18.2.2 The notice pursuant to Clause 18.2.1 shall include (i) time for the meeting, (ii) place for the meeting, (iii) a specification of the Record Date on which a person must be registered as a Bondholder in order to be entitled to exercise voting rights, (iv) a form of power of attorney, and (v) the agenda for the meeting. The reasons for, and contents of, each proposal as well as any applicable conditions and conditions precedent shall be specified in the notice. If a proposal concerns an amendment to any Finance Document, such proposed amendment must always be set out in detail. Should prior notification by the Bondholders be required in order to attend the Bondholders' Meeting, such requirement shall be included in the notice.
- 18.2.3 The Bondholders' Meeting shall be held no earlier than ten (10) Business Days and no later than thirty (30) Business Days after the effective date of the notice.
- 18.2.4 Without amending or varying these Terms and Conditions, the Agent may prescribe such further regulations regarding the convening and holding of a Bondholders' Meeting as the Agent may deem appropriate. Such regulations may include a possibility for Bondholders to vote without attending the meeting in person.

18.3 **Instigation of Written Procedure**

- 18.3.1 The Agent shall instigate a Written Procedure by way of sending a communication to the Bondholders as soon as practicable and in any event no later than five (5) Business Days after receipt of a complete communication from the Issuer or the Bondholder(s) (or such later date as may be necessary for technical or administrative reasons).
- 18.3.2 A communication pursuant to Clause 18.3.1 shall include (i) a specification of the Record Date on which a person must be registered as a Bondholder in order to be entitled to exercise voting rights, (ii) instructions and directions on where to receive a form for replying to the request (such form to include an option to vote yes or no for each request) as well as a form of power of attorney, and (iii) the stipulated time period within which the Bondholder must reply to the request (such time period to last at least ten (10) Business Days and not longer than thirty (30) Business Days from the effective date of the communication pursuant to Clause 18.3.1). The reasons for, and contents of, each proposal as well as any applicable conditions and conditions precedent shall be specified in the notice. If a proposal concerns an amendment to any Finance Document, such proposed amendment must always be set out in detail. If the voting is to be made electronically, instructions for such voting shall be included in the communication.
- 18.3.3 If so elected by the person requesting the Written Procedure and provided that it is also disclosed in the communication pursuant to Clause 18.3.1, when consents from Bondholders representing the requisite majority of the total Adjusted Nominal Amount pursuant to Clauses 18.4.2 and 18.4.3 have been received in a Written Procedure, the relevant decision shall be deemed to be adopted pursuant to Clause 18.4.2 or 18.4.3, as the case may be, even if the time period for replies in the Written Procedure has not yet expired.

18.4 **Majority, quorum and other provisions**

- 18.4.1 Only a Bondholder, or a person who has been provided with a power of attorney or other authorisation pursuant to Clause 7 (*Right to Act on Behalf of a Bondholder*) from a Bondholder:
- (a) on the Record Date specified in the notice pursuant to Clause 18.2.2, in respect of a Bondholders' Meeting, or
 - (b) on the Business Day specified in the communication pursuant to Clause 18.3.2, in respect of a Written Procedure,

may exercise voting rights as a Bondholder at such Bondholders' Meeting or in such Written Procedure, provided that the relevant Bonds are included in the Adjusted Nominal Amount. Each whole Bond entitles the Bondholder to one vote and any fraction of a Bond voted for by a person

shall be disregarded. Such Business Day specified pursuant to paragraph (a) or (b) above must fall no earlier than one (1) Business Day after the effective date of the notice or communication, as the case may be.

18.4.2 The following matters shall require the consent of Bondholders representing at least sixty-six and two thirds (66 2/3) per cent. of the Adjusted Nominal Amount for which Bondholders are voting at a Bondholders' Meeting or for which Bondholders reply in a Written Procedure in accordance with the instructions given pursuant to Clause 18.3.2:

- (a) if the total nominal amount of the Bonds exceeds, or if such issue would cause the total nominal amount of the Bonds to at any time exceed, SEK 600,000,000 (for the avoidance of doubt, for which consent shall be required at each occasion such Subsequent Bonds are issued);
- (b) a change to the terms of any of Clause 2.1, and Clauses 2.5 to 2.7;
- (c) a reduction of the premium payable upon the redemption or repurchase of any Bond pursuant to Clause 10 (*Redemption and Repurchase of the Bonds*);
- (d) a change to the Interest Rate or the Nominal Amount;
- (e) a change to the terms for the distribution of proceeds set out in Clause 17 (*Distribution of Proceeds*);
- (f) a change to the terms dealing with the requirements for Bondholders' consent set out in this Clause 18.4;
- (g) a change of issuer, an extension of the tenor of the Bonds or any delay of the due date for payment of any principal or interest on the Bonds;
- (h) a release of the Guarantee;
- (i) a mandatory exchange of the Bonds for other securities; and
- (j) early redemption of the Bonds, other than upon an acceleration of the Bonds pursuant to Clause 16 (*Acceleration of the Bonds*) or as otherwise permitted or required by these Terms and Conditions.

18.4.3 Any matter not covered by Clause 18.4.2 shall require the consent of Bondholders representing more than 50 per cent. of the Adjusted Nominal Amount for which Bondholders are voting at a Bondholders' Meeting or for which Bondholders reply in a Written Procedure in accordance with the instructions given pursuant to Clause 18.3.2. This includes, but is not limited to, any amendment to, or waiver of, the terms of any Finance Document that does not require a higher majority (other than an amendment permitted pursuant to Clause 19.1(a) or (c)), an acceleration of the Bonds, or the enforcement of the Guarantee.

18.4.4 Quorum at a Bondholders' Meeting or in respect of a Written Procedure only exists if a Bondholder (or Bondholders) representing at least twenty (20) per cent. of the Adjusted Nominal Amount:

- (a) if at a Bondholders' Meeting, attend the meeting in person or by other means prescribed by the Agent pursuant to Clause 18.2.4 (or appear through duly authorised representatives); or
- (b) if in respect of a Written Procedure, reply to the request.

18.4.5 If a quorum exists for some but not all of the matters to be dealt with at a Bondholders' Meeting or by a Written Procedure, decisions may be taken in the matters for which a quorum exists.

- 18.4.6 If a quorum does not exist at a Bondholders' Meeting or in respect of a Written Procedure, the Agent or the Issuer shall convene a second Bondholders' Meeting (in accordance with Clause 18.2.1) or initiate a second Written Procedure (in accordance with Clause 18.3.1), as the case may be, provided that the person(s) who initiated the procedure for Bondholders' consent has confirmed that the relevant proposal is not withdrawn. For the purposes of a second Bondholders' Meeting or second Written Procedure pursuant to this Clause 18.4.6, the date of request of the second Bondholders' Meeting pursuant to Clause 18.2.1 or second Written Procedure pursuant to Clause 18.3.1, as the case may be, shall be deemed to be the relevant date when the quorum did not exist. The quorum requirement in Clause 18.4.4 shall not apply to such second Bondholders' Meeting or Written Procedure.
- 18.4.7 Any decision which extends or increases the obligations of the Issuer or the Agent, or limits, reduces or extinguishes the rights or benefits of the Issuer or the Agent, under the Finance Documents shall be subject to the Issuer's or the Agent's consent, as applicable.
- 18.4.8 A Bondholder holding more than one Bond need not use all its votes or cast all the votes to which it is entitled in the same way and may in its discretion use or cast some of its votes only.
- 18.4.9 The Issuer may not, directly or indirectly, pay or cause to be paid any consideration to or for the benefit of any owner of Bonds (irrespective of whether such person is a Bondholder) for or as inducement to any consent under these Terms and Conditions, unless such consideration is offered to all Bondholders requested to give consent at the relevant Bondholders' Meeting or in a Written Procedure within the time period stipulated for the consideration to be payable or the time period for replies in the Written Procedure, as the case may be.
- 18.4.10 A matter decided at a duly convened and held Bondholders' Meeting or by way of Written Procedure is binding on all Bondholders, irrespective of them being present or represented at the Bondholders' Meeting or responding in the Written Procedure. The Bondholders that have not adopted or voted for a decision shall not be liable for any damages that this may cause the Issuer or the other Bondholders.
- 18.4.11 All costs and expenses incurred by the Issuer or the Agent for the purpose of convening a Bondholders' Meeting or for the purpose of carrying out a Written Procedure, including reasonable fees to the Agent, shall be paid by the Issuer.
- 18.4.12 If a decision is to be taken by the Bondholders on a matter relating to the Finance Documents, the Issuer shall promptly at the request of the Agent provide the Agent with a certificate specifying the number of Bonds owned by Group Companies or (to the knowledge of the Issuer) Affiliates, irrespective of whether such person is a Bondholder. The Agent shall not be responsible for the accuracy of such certificate or otherwise be responsible for determining whether a Bond is owned by a Group Company or an Affiliate.
- 18.4.13 Information about decisions taken at a Bondholders' Meeting or by way of a Written Procedure shall promptly be sent by notice to each person registered as a Bondholder on the date referred to in Clause 18.4.1(a) or 18.4.1(b), as the case may be, and also be published on the websites of the Issuer and the Agent, provided that a failure to do so shall not invalidate any decision made or voting result achieved. The minutes from the relevant Bondholders' Meeting or Written Procedure shall at the request of a Bondholder be sent to it by the Issuer or the Agent, as applicable.

19. AMENDMENTS AND WAIVERS

- 19.1 The Issuer, the Guarantor and the Agent (acting on behalf of the Bondholders) may agree in writing to amend and waive any provision in a Finance Document or any other document relating to the Bonds, provided that the Agent is satisfied that such amendment or waiver:
- (a) is not detrimental to the interest of the Bondholders as a group;

- (b) is made solely for the purpose of rectifying obvious errors and mistakes;
- (c) is required by any applicable regulation, a court ruling or a decision by a relevant authority; or
- (d) has been duly approved by the Bondholders in accordance with Clause 18 (*Decisions by Bondholders*) and it has received any conditions precedent specified for the effectiveness of the approval by the Bondholders.

19.2 Any amendments to the Finance Documents shall be made available in the manner stipulated in Clause 13.4 (*Availability of Finance Documents*). The Issuer shall ensure that any amendments to the Finance Documents are duly registered with the CSD and each other relevant organisation or authority. The Issuer shall promptly publish by way of press release any amendment or waiver made pursuant to Clause 19.1(a) or (c), in each case setting out the amendment in reasonable detail and the date from which the amendment or waiver will be effective.

19.3 An amendment to the Finance Documents shall take effect on the date determined by the Bondholders Meeting, in the Written Procedure or by the Agent, as the case may be.

20. THE AGENT

20.1 Appointment of the Agent

20.1.1 By subscribing for Bonds, each initial Bondholder appoints the Agent to act as its agent in all matters relating to the Bonds and the Finance Documents, and authorises the Agent to act on its behalf (without first having to obtain its consent, unless such consent is specifically required by these Terms and Conditions) in any legal or arbitration proceedings relating to the Bonds held by such Bondholder, including the winding-up, dissolution, liquidation, company reorganisation (Sw. *företagsrekonstruktion*) or bankruptcy (Sw. *konkurs*) (or its equivalent in any other jurisdiction) of the Issuer and any legal or arbitration proceeding relating to the perfection, preservation, protection or enforcement of the Guarantee. By acquiring Bonds, each subsequent Bondholder confirms such appointment and authorisation for the Agent to act on its behalf.

20.1.2 Each Bondholder shall immediately upon request provide the Agent with any such documents, including a written power of attorney (in form and substance satisfactory to the Agent), that the Agent deems necessary for the purpose of exercising its rights and/or carrying out its duties under the Finance Documents. The Agent is under no obligation to represent a Bondholder which does not comply with such request.

20.1.3 The Issuer shall promptly upon request provide the Agent with any documents and other assistance (in form and substance satisfactory to the Agent), that the Agent deems necessary for the purpose of exercising its rights and/or carrying out its duties under the Finance Documents.

20.1.4 The Agent is entitled to fees for all its work in such capacity and to be indemnified for costs, losses and liabilities on the terms set out in the Finance Documents and the Agency Agreement and the Agent's obligations as Agent under the Finance Documents are conditioned upon the due payment of such fees and indemnifications.

20.1.5 The Agent may act as agent or trustee for several issues of securities or other loans issued by or relating to the Issuer and other Group Companies notwithstanding potential conflicts of interest.

20.2 Duties of the Agent

20.2.1 The Agent shall represent the Bondholders in accordance with the Finance Documents, including, *inter alia*, holding the Guarantee on behalf of the Bondholders and, where relevant, enforcing any claim under the Guarantee on behalf of the Bondholders.

- 20.2.2 When acting pursuant to the Finance Documents, the Agent is always acting with binding effect on behalf of the Bondholders. The Agent is never acting as an advisor to the Bondholders or the Issuer. Any advice or opinion from the Agent does not bind the Bondholders or the Issuer.
- 20.2.3 When acting pursuant to the Finance Documents, the Agent shall carry out its duties with reasonable care and skill in a proficient and professional manner.
- 20.2.4 The Agent shall treat all Bondholders equally and, when acting pursuant to the Finance Documents, act with regard only to the interests of the Bondholders as a group and shall not be required to have regard to the interests or to act upon or comply with any direction or request of any other person, other than as explicitly stated in the Finance Documents.
- 20.2.5 The Agent is always entitled to delegate its duties to other professional parties and to engage external experts when carrying out its duties as agent, without having to first obtain any consent from the Bondholders or the Issuer. The Agent shall however remain liable for any actions of such parties if such parties are performing duties of the Agent under the Finance Documents.
- 20.2.6 The Issuer shall on demand by the Agent pay all costs for external experts engaged by it (i) after the occurrence of an Event of Default, (ii) for the purpose of investigating or considering (A) an event or circumstance which the Agent reasonably believes is or may lead to an Event of Default or (B) a matter relating to the Issuer or the Finance Documents which the Agent reasonably believes may be detrimental to the interests of the Bondholders under the Finance Documents, and (iii) in connection with any Bondholders' Meeting or Written Procedure, (iv) when the Agent is otherwise required to make a determination under these Terms and Conditions or (v) in connection with any amendment (whether contemplated by the Finance Documents or not) or waiver under the Finance Documents. Any compensation for damages or other recoveries received by the Agent from external experts engaged by it for the purpose of carrying out its duties under the Finance Documents shall be distributed in accordance with Clause 17 (*Distribution of Proceeds*).
- 20.2.7 The Agent shall, as applicable, enter into agreements with the CSD, and comply with such agreement and the CSD Regulations applicable to the Agent, as may be necessary in order for the Agent to carry out its duties under the Finance Documents.
- 20.2.8 Other than as specifically set out in the Finance Documents, the Agent shall not be obliged to monitor (i) whether any Event of Default has occurred or is expected to occur, (ii) the financial condition of the Issuer and the Group, (iii) the performance, default or any breach by the Issuer or any other party of its obligations under the Finance Documents, or (iv) whether any other event specified in any Finance Document has occurred. Should the Agent not receive such information, the Agent is entitled to assume that no such event or circumstance exists or can be expected to occur, provided that the Agent does not have actual knowledge of such event or circumstance.
- 20.2.9 The Agent shall (i) review each Compliance Certificate delivered to it to determine that it meets the requirements set out in Clause 13.1.3 and as otherwise agreed between the Issuer and the Agent, and (ii) verify that the Issuer according to its reporting in the Compliance Certificate meets the Incurrence Test and/or the Maintenance Test (as applicable). The Issuer shall promptly upon request provide the Agent with such information as the Agent reasonably considers necessary for the purpose of being able to comply with this Clause 20.2.9.
- 20.2.10 The Agent shall ensure that it receives evidence satisfactory to it that Finance Documents which are required to be delivered to the Agent are duly authorised and executed (as applicable). The Issuer shall promptly upon request provide the Agent with such documents and evidence as the Agent reasonably considers necessary for the purpose of being able to comply with this Clause 20.2.10. Other than as set out above, the Agent shall neither be liable to the Issuer or the Bondholders for damage due to any documents and information delivered to the Agent not being accurate, correct and complete, unless it has actual knowledge to the contrary, nor be liable for the content, validity, perfection or enforceability of such documents.

- 20.2.11 Notwithstanding any other provision of the Finance Documents to the contrary, the Agent is not obliged to do or omit to do anything if it would or might in its reasonable opinion constitute a breach of any regulation.
- 20.2.12 If in the Agent's reasonable opinion the cost, loss or liability which it may incur (including reasonable fees to the Agent) in complying with instructions of the Bondholders, or taking any action at its own initiative, will not be covered by the Issuer, the Agent may refrain from acting in accordance with such instructions, or taking such action, until it has received such funding or indemnities (or adequate Security has been provided therefore) as it may reasonably require.
- 20.2.13 The Agent shall give a notice to the Bondholders (i) before it ceases to perform its obligations under the Finance Documents by reason of the non-payment by the Issuer of any fee or indemnity due to the Agent under the Finance Documents or the Agency Agreement or (ii) if it refrains from acting for any reason described in Clause 20.2.12.
- 20.2.14 The Agent may instruct the CSD to split the Bonds to a lower nominal amount in order to facilitate partial redemptions, restructuring of the Bonds or other situations.
- 20.3 **Liability for the Agent**
- 20.3.1 The Agent will not be liable to the Bondholders for damage or loss caused by any action taken or omitted by it under or in connection with any Finance Document, unless directly caused by its negligence or wilful misconduct. The Agent shall never be responsible for indirect or consequential loss.
- 20.3.2 The Agent shall not be considered to have acted negligently if it has acted in accordance with advice from or opinions of reputable external experts provided to the Agent or if the Agent has acted with reasonable care in a situation when the Agent considers that it is detrimental to the interests of the Bondholders to delay the action in order to first obtain instructions from the Bondholders.
- 20.3.3 The Agent shall not be liable for any delay (or any related consequences) in crediting an account with an amount required pursuant to the Finance Documents to be paid by the Agent to the Bondholders, provided that the Agent has taken all necessary steps as soon as reasonably practicable to comply with the regulations or operating procedures of any recognised clearing or settlement system used by the Agent for that purpose.
- 20.3.4 The Agent shall have no liability to the Issuer or the Bondholders for damage caused by the Agent acting in accordance with instructions of the Bondholders given in accordance with the Finance Documents.
- 20.3.5 Any liability towards the Issuer which is incurred by the Agent in acting under, or in relation to, the Finance Documents shall not be subject to set-off against the obligations of the Issuer to the Bondholders under the Finance Documents.
- 20.4 **Replacement of the Agent**
- 20.4.1 Subject to Clause 20.4.6, the Agent may resign by giving notice to the Issuer and the Bondholders, in which case the Bondholders shall appoint a successor Agent at a Bondholders' Meeting convened by the retiring Agent or by way of Written Procedure initiated by the retiring Agent.
- 20.4.2 Subject to Clause 20.4.6, if the Agent is insolvent, the Agent shall be deemed to resign as Agent and the Issuer shall within ten (10) Business Days appoint a successor Agent which shall be an independent financial institution or other reputable company which regularly acts as agent under debt issuances.
- 20.4.3 A Bondholder (or Bondholders) representing at least ten (10) per cent. of the Adjusted Nominal Amount may, by notice to the Issuer (such notice shall, if given by several Bondholders, be given

by them jointly), require that a Bondholders' Meeting is held for the purpose of dismissing the Agent and appointing a new Agent. The Issuer may, at a Bondholders' Meeting convened by it or by way of Written Procedure initiated by it, propose to the Bondholders that the Agent be dismissed and a new Agent appointed.

- 20.4.4 If the Bondholders have not appointed a successor Agent within ninety (90) days after (i) the earlier of the notice of resignation was given or the resignation otherwise took place or (ii) the Agent was dismissed through a decision by the Bondholders, the Issuer shall within thirty (30) days thereafter appoint a successor Agent which shall be an independent financial institution or other reputable company with the necessary resources to act as agent in respect of Market Loans.
- 20.4.5 The retiring Agent shall, at its own cost, make available to the successor Agent such documents and records and provide such assistance as the successor Agent may reasonably request for the purposes of performing its functions as Agent under the Finance Documents.
- 20.4.6 The Agent's resignation or dismissal shall only take effect upon the earlier of (i) the appointment of a successor Agent and acceptance by such successor Agent of such appointment and the execution of all necessary documentation to effectively substitute the retiring Agent, and (ii) the period pursuant to Clause 20.4.4 (ii) having lapsed.
- 20.4.7 Upon the appointment of a successor, the retiring Agent shall be discharged from any further obligation in respect of the Finance Documents but shall remain entitled to the benefit of the Finance Documents and remain liable under the Finance Documents in respect of any action which it took or failed to take whilst acting as Agent. Its successor, the Issuer and each of the Bondholders shall have the same rights and obligations amongst themselves under the Finance Documents as they would have had if such successor had been the original Agent.
- 20.4.8 In the event that there is a change of the Agent in accordance with this Clause 20.4, the Issuer shall execute such documents and take such actions as the new Agent may reasonably require for the purpose of vesting in such new Agent the rights, powers and obligation of the Agent and releasing the retiring Agent from its further obligations under the Finance Documents and the Agency Agreement. Unless the Issuer and the new Agent agree otherwise, the new Agent shall be entitled to the same fees and the same indemnities as the retiring Agent.

21. APPOINTMENT AND REPLACEMENT OF THE PAYING AGENT

- 21.1 The Issuer appoints the Paying Agent to manage certain specified tasks relating to the Bonds, under these Terms and Conditions, in accordance with the legislation, rules and regulations applicable to the Issuer, the Bonds and/or under the CSD Regulations.
- 21.2 The Paying Agent may retire from its appointment or be dismissed by the Issuer, provided that the Issuer has approved that a commercial bank or securities institution approved by the CSD accedes as new Paying Agent at the same time as the old Paying Agent retires or is dismissed. If the Paying Agent is insolvent, the Issuer shall immediately appoint a new Paying Agent, which shall replace the old Paying Agent as paying agent in accordance with these Terms and Conditions.
- 21.3 The Paying Agent will not be liable to the Bondholders for damage or loss caused by any action taken or omitted by it under or in connection with these Terms and Conditions, unless directly caused by its gross negligence or wilful misconduct. The Paying Agent shall never be responsible for indirect or consequential loss.

22. APPOINTMENT AND REPLACEMENT OF CSD

- 22.1 The Issuer has appointed the CSD to manage certain tasks under these Terms and Conditions and in accordance with the CSD Regulations and the other regulations applicable to the Bonds.

22.2 The CSD may retire from its assignment or be dismissed by the Issuer, provided that the Issuer has effectively appointed a replacement CSD that accedes as CSD at the same time as the old CSD retires or is dismissed and provided also that the replacement does not have a negative effect on any Bondholder. The replacing CSD must be authorised to professionally conduct clearing operations and be authorised as a central securities depository in accordance with applicable law.

23. NO DIRECT ACTIONS BY BONDHOLDERS

23.1 A Bondholder may not take any steps whatsoever against any Group Company or with respect to the Guarantee to enforce or recover any amount due or owing to it pursuant to the Finance Documents, or to initiate, support or procure the winding-up, dissolution, liquidation, company reorganisation or bankruptcy in any jurisdiction of any Group Company in relation to any of the obligations and liabilities of such Group Company under the Finance Documents. Such steps may only be taken by the Agent.

23.2 Clause 23.1 shall not apply if the Agent has been instructed by the Bondholders in accordance with the Finance Documents to take certain actions but fails for any reason to take, or is unable to take (for any reason other than a failure by a Bondholder to provide documents in accordance with Clause 20.1.2), such actions within a reasonable period of time and such failure or inability is continuing. However, if the failure to take certain actions is caused by the non-payment of any fee or indemnity due to the Agent under the Finance Documents or the Agency Agreement or by any reason described in Clause 20.2.12, such failure must continue for at least forty (40) Business Days after notice pursuant to Clause 20.2.13 before a Bondholder may take any action referred to in Clause 23.1.

23.3 The provisions of Clause 23.1 shall not in any way limit an individual Bondholder's right to claim and enforce payments which are due to it under Clause 10.4 (*Mandatory repurchase due to a Change of Control Event or a Listing Failure Event (put option)*) or other payments which are due by the Issuer to some but not all Bondholders.

24. PRESCRIPTION

24.1 The right to receive repayment of the principal of the Bonds shall be prescribed and become void ten (10) years from the Redemption Date. The right to receive payment of interest (excluding any capitalised interest) shall be prescribed and become void three (3) years from the relevant due date for payment. The Issuer is entitled to any funds set aside for payments in respect of which the Bondholders' right to receive payment has been prescribed and has become void.

24.2 If a limitation period is duly interrupted in accordance with the Swedish Act on Limitations (*preskriptionslag (1981:130)*), a new limitation period of ten (10) years with respect to the right to receive repayment of the principal of the Bonds, and of three (3) years with respect to receive payment of interest (excluding capitalised interest) will commence, in both cases calculated from the date of interruption of the limitation period, as such date is determined pursuant to the provisions of the Swedish Act on Limitations.
