Directors

John Borg Edward Camilleri Malcolm Booker

Secretary

JTC (Jersey) Limited

Registered office

28 The Esplanade, St Helier, Jersey JE2 3QA

Company number

147659 (OC 387)

Auditors

BDO Malta, Triq it-Torri, Msida, Malta, MSD 1824

Bankers

Royal Bank of Scotland plc, 250 Bishopsgate, London, EC2M 4AA Lloyds Banking Group plc, 25 Gresham Street, London EC2V 7HN

Report of the directors for the year ended 31 December 2022

The directors present their report together with the audited financial statements of Dooba Holdings Limited (the "company") and all of its subsidiary undertakings (together the "Group") for the year ended 31 December 2022.

Results and dividends

The consolidated statement of comprehensive income is set out on page 11 and shows the result for the year.

The directors do not propose the payment of a dividend (2021: £nil).

Principal activity

The company acts as an investment holding company with a controlling interest in its subsidiary GMV Holdings Limited, interests in a number of other investments through its wholly owned subsidiary Dooba Properties Limited (as detailed in note 15), as well as holdings in other direct and indirect investments.

Review of business

Loss before tax for the year was £101.6 million (2021: profit of £64.1 million) made up primarily of operating loss of £56.9 million (2021: profit of £23.3 million), a share of losses in associates of £15.9 million (2021: profits of £8.3 million) and a deficit on revaluation of other investments of £42.8m (2021: surplus of £23.6m).

The operating loss resulted primarily from unrealised losses on the fair value of investment properties of £34.0 million (2021: gains of £23.2 million). Administration costs were higher at £24.6 million (2021: £22.8 million) and other operating income decreased to £2.6 million (2021: £8.1 million) primarily due to the business combination in the prior year.

During the year, net rental and other property income was £18.5 million (2021: £14.7 million). Loss on the sale of trading properties was £16.1 million (2021: loss of £0.1 million). Overall consolidated gross profit in 2022 was £2.5 million (2021: profit of £14.6 million).

The results were further impacted by finance expenses increasing to £13.9 million (2021: £11.9 million).

Total Group assets at the year-end were £622.9 million (2021: £744.3 million). The Group's portfolio of investment properties were valued at year-end at £275.3 million (2021: £323.5 million). The Group has disposed of a further three (2021: two) properties during the year, in line with its strategy of opportunistically selling low yielding properties. The Group's trading properties are carried at the lower of cost and net realisable value which is primarily determined using a discounted cash flow method. The carrying values of these assets decreased by £12.2 million and are currently valued at £86.8 million (2021: £99.0 million). The Group invested a further £28.3 million (2021: £6.5 million) in equity accounted associates during 2022. The year-end balance of £92.5 million (2021: £84.2 million) was after a loss on share of associates of £15.9 million (2021: profit of £8.3 million).

Rental collections for 2022 were 98.59% (2021: 97.4%).

Going Concern Commentary

The directors consider that it is appropriate to adopt the going concern basis in preparing the financial statements. For further details see note 1.1 to the financial statements.

Post balance sheet events and future developments

In April 2023, the National Westminster Bank plc facility was extended by 3 months to July 2023. Advanced discussions are underway to refinance the current National Westminster Bank plc and Lloyds Banking Group plc facilities. The directors are confident that new facilities will be in place prior to the expiry of these facilities. Further details are included in note 1.

Report of the directors for the year ended 31 December 2022 (Continued)

Directors

The directors of the company during the year and to the date of this report were:

John Borg Edward Camilleri Malcolm Booker

The company's Articles of Association do not require any directors to retire.

Auditors

All of the current directors have taken all the steps that they ought to have taken to make themselves aware of any information needed by the Company's auditors for the purposes of their audit and to establish that the auditors are aware of that information. The directors are not aware of any relevant audit information of which the auditors are unaware.

BDO Malta have expressed their willingness to continue in office and a resolution to re-appoint them will be proposed at the annual general meeting.

On behalf of the Board on 26 April 2023

11 0000

Director

Edward Camilleri

Edward Camilleri

Director

Statement of directors' responsibilities

The directors are required by the Maltese Companies Act, 1995 to prepare financial statements which give a true and fair view of the state of affairs of the company and the Group as at the end of each financial period and of the profit or loss for that period.

In preparing the financial statements, the directors are required to:

- ensure that the financial statements have been drawn up in accordance with International Financial Reporting Standards as adopted by the EU;
- select and apply appropriate accounting policies;
- make accounting estimates that are reasonable in the circumstances; and
- ensure that the financial statements are prepared on the going concern basis unless it is inappropriate to presume that the company and the Group will continue in business as a going concern.

The directors are also responsible for designing, implementing and maintaining internal control relevant to the preparation and the fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error, and that comply with the Maltese Companies Act, 1995. They are also responsible for safeguarding the assets of the company and the Group and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Sustainability report

Executive Summary

Sustainability is not simply a matter of compliance; it must be a core principle for our business success.

The built environment contributes circa 25% of UK Greenhouse Gas emissions (House of Commons Environmental Audit Committee, Building to net zero: costing carbon in Construction, First Report of Session 2022–23, 2022) and we recognise our role and our responsibility to drive this down and influence the sustainability agenda. We take a long-term view with any investments we manage, which means we have the opportunity to embed and influence sustainability throughout the whole lifecycle of our buildings and developments.

Our ethos of delivering shared value for our colleagues, investors, partners and wider community stakeholders is supported by our positive contributions towards society and the natural environment.

Climate change risk reporting is not currently a requirement for our business, but we wish to be transparent and disclose our approach and progress towards full sustainability and climate change risk reporting. It is our aim that by year end 2023 disclosures we will be fully aligned with the TCFD disclosures. This is a summary of our approach to climate related risks and progress to date. A more detailed approach will be documented with our sustainability performance in the Sustainability Annual Report, which will be published later this year when performance data has been verified.

Where We Are

With the risks presented by climate change we have assessed our portfolio against physical and transition risks. While we recognise that there is still more work to do, this section lays out our approach to assessing and managing risks and our current actions.

Over the last few years, we have invested time and resources to improve our ESG infrastructure, including:

- Establishing the right sustainability culture from top-down;
- Detailing our approach to sustainability publicly and integrating sustainability into our operations and supply chain engagement;
- Development of toolkits to embed sustainability and resilience across all our functions and monitor our progress;
- Development of sustainability scorecards to monitor performance and further inform decisions (including physical risk assessments, transition risks, and CRREM decarbonisation pathways);
- Development of site level flood assessments and plans for those at medium/high high risk; and
- Working with specialists to undertake a review of our transitional risks and gap analysis to help us understand our progress and areas for improvement towards full TCFD alignment.;
- Working with specialists to undertake a detailed assessment of each building including physical risk exposure and climate resilience under different climate change scenarios;.
- Quantification of the properties exposed to different transitional and physical risks and;
- Training and awareness on key issues to divisions and the board.

Next Steps for 2023

We are committed to improving our processes and resilience to climate risks and will continue our review for each site and look to improve our risk management structure. We aim to:

- Understand the financial impact of the risks flagged;
- Continue to improve oversight and ownership of climate-related risks and opportunities at board and management level;
- Further detail climate risk exposure on purchase reports, with the development of sustainability scorecards to sit alongside the current checklists;
- Improve site level adaptation measures/ resilience plans to adapt to the changing climate;
- Further integrate considerations regarding climate risks and opportunities into financial and strategic planning;
- Understand the roll nature-based solutions can play in our adaptation strategy.

Sustainability report

Governance and Risk Management

Our board has the final responsibility for these climate-related risks, and our Development Director is currently the representative board member who oversees all sustainability, health & safety and social value criteria. The board meets with the whole senior management team on a quarterly basis and oversees the delivery of the sustainability strategy. Sustainability issues are incorporated into quarterly financial reporting which highlight progress towards goals and outlines quarterly and annual objectives and are disclosed to the board and the investors.

The responsibilities for the day-to-day assessment and management of climate-related risks are devolved to the management team, with the Head of Sustainability being the lead. Our Safety, Wellbeing, Environment and People team consists of 6 internal employees from different parts of the business who drive the wider ESG agenda and report directly into board members. We also have an environmental sustainability team that looks more specifically at environmental risks, issues and legislation and works with the Environment and Climate Change Steering Group that includes representatives from all divisions within the business including the Development Director. To support this role several training sessions have been delivered with both internal and external experts on both physical and key transitional risks. Both teams are supported by external consultants. Divisional and subject specific risk registers are held and risks are reported up to the quarterly senior management meetings and to the board.

The Environmental Sustainability Team sit within the operations team and reports to the board. In addition to this we have a Compliance Committee who meet quarterly and have oversight of compliance. Any disclosure that is made in relation to TCFD therefore requires review by the directors.

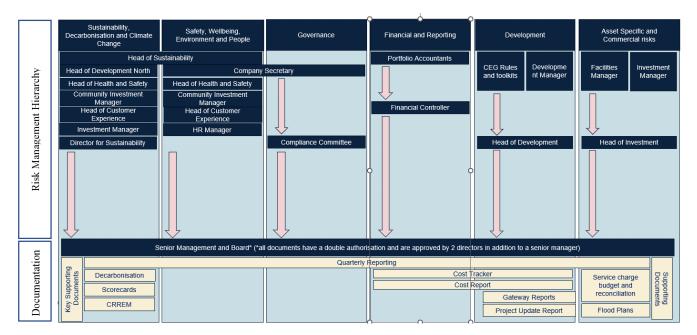

Figure 1: Internal Risk Management Process

In order for risks to be identified and managed through the lifecycle of the building, climate change risks and opportunities are assessed prior to acquisition, we currently utilise a checklist with some key sustainability and resilience criteria, however we are developing this further with site acquisition sustainability assessments and scorecards which include more detailed analysis of physical and transitional climate risks for the short, medium and long-term.

During the development of buildings, there are stringent design and reporting criteria required including the completion of a building level resilience plan at the point of practical completion.

Sustainability report

Governance and Risk Management (continued)

During the operation phase of the building monthly, quarterly and annual reporting is carried out. This covers energy efficiency, carbon emissions, water intensity and waste arisings. The carbon emissions are plotted and assessed against the CRREM (Carbon Risk Real Estate Monitor) 1.5OC pathway. Exposure to offsetting prices is also tracked both at an asset and portfolio level. In addition to this every building has the flood (fluvial, pluvial and sea level) risk mapped annually. For those physical risks that are scored medium – high, resilience plans are developed. Upon completion of the above, a sustainability and resilience scorecard and decarbonisation pathway is produced to inform decisions made by investment managers, and board members. These scorecards also reflect the risk scores associated with future scenarios that were identified in our detailed scenario analysis.

Strategy

Given the need for immediate action and legislation visibility, we are looking at the transition and legislation risks until 2030. However, physical risks are likely to be longer term with many effects locked in by the current emission levels. Which is why we assess physical risks for the short-term, medium-term and long-term.

Transitional Risks

Policy, legal, technological, market and reputational risks are assessed as transitional risks. The key transitional risks identified are around legislation, and reputation.

Legislation is changing rapidly including the minimum energy efficiency standards. Those delaying compliance will face being unable to meet the targets and having depreciating, non-compliant assets on their Balance Sheet. Awareness is also growing rapidly and with this the exposure to market and reputational risks increase. It is thought that the lower emissions scenario will require legislation and markets to change more rapidly increasing the legislation and market risks.

When we are looking at asset level transitional risks, we include: EPC rating, fossil fuel use, energy intensity and carbon intensity to provide the risk rating. We have a rolling programme upgrading assets to EPC B/A as they become available to reduce our exposure to this transitional risk. We also carefully monitor exposure to carbon prices should a carbon tax be introduced.

While there are risks, the move to a low carbon economy also brings opportunities. Those that are ahead of the market are expected to receive higher yields, preferable loan rates and greater letting rates.

Physical Risks

We have undertaken a physical climate risk assessment based on the historic climate baseline for all of our sites. This assessment includes changes in temperatures and precipitation (including the occurrence of extreme events), wind and storms, sea level rise, wildfires and soil erosion. We have then undertaken detailed scenario analysis for each site.

The scenarios used include a low emission (RCP2.6) scenario to reflect warming less than 2 degrees and high emission scenario (RCP8.5) to reflect warming exceeding 4 degrees as a worst-case scenario. We have assessed these for 3 different timeframes short term: 2022-2040, medium term: 2041-2070 and long term: 2071-2089. To reflect the variation within the scenarios we include 2 different levels of uncertainty by reflecting 50th and 90th percentiles.

The key physical risks identified for our sites are around those associated with increased rainfall events, including pluvial and fluvial flooding. We are continuing to develop our assessments to ensure geology and other factors are considered and these will be reflected in the asset value at risk calculations. As part of the risk assessment, we have also recorded existing risk mitigation measures and will seek to build on these to identify possible additional measures required to adapt to future risks.

Sustainability report

Metrics and Targets

Below is a summary of our climate-related metrics and targets against which we currently report, and which have been independently verified by our climate specialists. Further details of our targets are available in our sustainability strategy, and we will be publishing our annual sustainability report later in the year.

Within the table below Landlord managed consumption is from supplier billing to date, where billing is not available at the date of the report a combination of half hourly data and meter reads have been used. Where updated billing has been received since the prior period these comparatives have been updated as appropriate. Please note that Directly Procured Occupier data has been disclosed as informed to us by occupiers and so cannot be separately verified.

All emissions are location-based with conversion factors from UK Government Greenhouse Gas Conversion Factors for Company Reporting published by the Department for Business, Energy & Industrial Strategy (BEIS) and the Department for Environment, Food & Rural Affairs (DEFRA).

Table 4 - Details for Dooba Holdings Limited

	2021	2022
Energy Consumption		
Landlord Managed Gas Consumption (kWh)	4,261,083	3,170,982
Landlord Managed Electricity Consumption (Scope 2; kWh)	3,426,253	3,901,638
Landlord Procured Occupier Electricity Consumption (Scope 3; kWh)	11,871,345	11,247,985
Directly Procured Occupier Gas Consumption (Scope 3; kWh) (not verified)	-	378
Directly Procured Occupier Electricity Consumption (Scope 3; kWh) (not verified)	804,503	692,304
Energy Intensity (kWh/m²)	163	162
Data availability (%) **	88%	86%
Energy Related Carbon Emissions		
Scope 1 (tCO2e) (gas and oil usage)	780	579
Scope 1 (tCO2e) (refrigerant loss)	235	33
Scope 2 (tCO2e) (location-based electricity related emissions)	727	754
Scope 3 (tCO2e) (occupier energy only)	2,691	2,309
Carbon Intensity (tCO₂e/m²)	0.04	0.03
Total Landlord Managed Waste Arisings (tonnes)	256	318
Recycling Rate (%)	70%	67%

^{**} Data availability has increased due to the increased scope of data contained within the report

Reducing carbon intensity

We have an ambition to become Net Zero by 2050. This means we need to reduce our carbon emissions in line with a 1.5°C climate warming scenario and neutralise any residual emissions we cannot eliminate through verified offsetting schemes.

INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF Dooba Holdings Limited

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying consolidated and separate financial statements (the financial statements) of Dooba Holdings Limited (the Company) together with its subsidiaries and associates (the Group), set out on pages 11 to 61, which comprise the consolidated and company statement of financial position as at 31 December 2022, the consolidated and company statements of comprehensive income, changes in equity and cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Group and the Company as at 31 December 2022, and of their financial performance and their cash flows for the year then ended in accordance with International Financial Reporting Standards as adopted by the EU (EU IFRSs) and have been prepared in accordance with the requirements of the Companies Act (Cap. 386).

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) together with the ethical requirements that are relevant to our audit of the financial statements in accordance with the Accountancy Profession (Code of Ethics for Warrant Holders) Directive issued in terms of the Accountancy Profession Act (Cap. 281) in Malta, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information

The directors are responsible for the other information. The other information comprises the directors' report, sustainability report but does not include the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon. In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

With respect to the directors' report, we also considered whether the directors' report includes the disclosures required by Article 177 of the Maltese Companies Act (Cap. 386). Based on the work we have performed, in our opinion:

- the information given in the directors' report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the directors' report has been prepared in accordance with the Maltese Companies Act (Cap. 386).

In addition, in light of the knowledge and understanding of the Company and its environment obtained in the course of the audit, we are required to report if we have identified material misstatements in the directors' report. We have nothing to report in this regard.

INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF Dooba Holdings Limited (continued)

Responsibilities of the Directors

As explained more fully in the statement of directors' responsibilities set out on page 3, the directors are responsible for the preparation of the financial statements that give a true and fair view in accordance with EU IFRS, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The directors are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting
 and, based on the audit evidence obtained, whether a material uncertainty exists related to
 events or conditions that may cast significant doubt on the Company's ability to continue as a
 going concern. If we conclude that a material uncertainty exists, we are required to draw
 attention in our auditor's report to the related disclosures in the financial statements or, if such
 disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit
 evidence obtained up to the date of our auditor's report.
- However, future events or conditions may cause the Company to cease to continue as a going concern.

INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF Dooba Holdings Limited (continued)

Auditor's Responsibilities for the Audit of the Financial Statements (continued)

• Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation

We communicate with the directors, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on Other Legal and Regulatory Requirements

Under the Maltese Companies Act (Cap. 386) we are required to report to you if, in our opinion:

- We have not received all the information and explanations we require for our audit.
- Adequate accounting records have not been kept, or that returns adequate for our audit have not been received from branches not visited by us.
- The financial statements are not in agreement with the accounting records and returns.
- The information given in the directors' report is not consistent with the financial statements.

We have nothing to report to you in respect of these responsibilities.

1 Accounting policies

1.1 Basis of preparation

The principal accounting policies adopted in the preparation of the financial statements are set out below. The policies have been consistently applied to all the years presented, unless otherwise stated.

These financial statements have been prepared in accordance with the International Financial Reporting Standards, International Accounting Standards and Interpretations (collectively IFRS) issued by the International Accounting Standards Board (IASB) as adopted by the European Union ("adopted IFRS").

The financial statements have been prepared on the historical cost basis except that investment properties, other investments and derivative financial instruments are measured at fair value.

The preparation of financial statements in compliance with adopted IFRS requires the use of certain critical accounting estimates. It also requires the directors to exercise their judgement in the most appropriate application in applying the Group's accounting policies. The areas where significant judgements and estimates have been made in preparing the financial statements and their effect are disclosed in note 2.

These financial statements are presented in Sterling (GBP), which is the Group's functional currency and all values are rounded to the nearest pound (£) except where otherwise indicated. The functional currency is the currency of the primary economic environment in which the Group operates. Accordingly, the Group measures its financial results and financial position in Sterling. The reporting currency used for the preparation of the financial statements is Sterling, which is the currency in which the share capital of the company is denominated. This currency differs from the currency of Cyprus which is the country in which the company is domiciled.

The consolidated financial statements incorporate the results of business combinations using the purchase method. In the consolidated statement of financial position, the acquiree's identifiable assets, liabilities and contingent liabilities are initially recognised at their fair values at the acquisition date. The results of acquired operations are included in the consolidated statement of comprehensive income from the date on which control is obtained.

Going Concern

The directors' have placed a particular focus on the appropriateness of adopting the going concern basis in preparing the financial statements for the year ended 31 December 2022. The Group's going concern assessment is dependent on a number of factors, including performance of rental collections, rising interest rates, continued access to funding and the ability to continue to operate the Group's secured debt structure within its financial covenants. The continuing conflict across Europe between Ukraine & Russia has had a limited impact on the operations of the Group given all properties and investments held are within the UK, let to principally UK based business and thus the directors consider the impact of this on the going concern assessment to be limited.

The directors have performed reverse stress testing of the Group's forecasts over the next 12 months of the 5 year rolling cash flow forecast, which indicates that minimum rent collections of 86% are required to maintain sufficient liquid cash reserves. Throughout this downside scenario the Group has sufficient liquid cash reserves to meet all committed contractual obligations over the assessment period being 12 months from the date of approval of these financial statements.

The directors receive regular updates on the status of rent collections for the quarter and regularly assess the credit worthiness of tenants, working on a case-by-case basis to rectify any potential issues.

Notes forming part of the financial statements for the year ended 31 December 2022 (Continued)

1.1 Basis of preparation (Continued)

Given the average collections for the Group during the last 12 months have averaged 99%, a minimum of 86% is considered extremely likely to be achieved for the next 12 months.

The impact of a reduction in rental collections and increasing SONIA rates has also been applied to the Group's debt serviceability covenants. In the unlikely event of a covenant breach there are cures available under the facility agreements or a waiver would be negotiated. Previous discussions with the Group's lenders surrounding potential breaches have established the expectation that if the Group continues to make interest and capital repayments as and when they are due, then no adverse action is expected to be taken. Given the minimum rental collections of 86% required to meet the Group's contractual obligations there are no issues forecast with respect to the payment of future interest and capital payments.

The Group has existing debt facilities of £151.4m falling due within the next 12 months. Advanced discussions are underway to refinance these facilities and terms have been provided by the respective lenders. For these reasons the Directors consider the refinance risk to be low and are confident that new facilities will be in place prior to the expiry of the current facilities.

Based on the analysis and stress testing undertaken the directors believe that it remains appropriate to prepare the financial statements on a going concern basis, which assumes that the Group will continue to meet its liabilities, as they fall due, for the foreseeable future. The financial statements do not include any adjustments that would result from the basis of preparation being inappropriate.

1.2 Changes in accounting policies

New standards, interpretations and amendments effective for the current year

During the year, the Group adopted the amendments to IFRS 3, IAS 16 and IAS 37 and adopted the amendments to IFRS 1, IFRS 9, IFRS 16 and IAS 41 arising from the annual improvement cycle to IFRSs. There was no material change to the Group's accounting policies and disclosures as a result.

There were no other new or amended standards issued by the International Accounting Standards Board ("IASB") during the year, and none of the interpretations issued by the IFRS Interpretations Committee ("IFRIC") have led to any material changes in the Group's accounting policies or disclosures during the year.

Standards and interpretations in issue not yet adopted

The IASB and IFRIC have issued or revised IFRS 17, IAS 1, IFRS 2, IAS 8, IAS 12, IFRS 17 and IFRS 16 but these are not expected to have a material effect on the operations of the Group.

The Group does not expect any other standards, amendments or interpretations issued by the IASB or IFRIC, but not yet effective, to have a material impact on the Group.

1.3 Revenue recognition

Revenue represents rental and property development fee income receivable from external customers at invoiced amounts less value added tax or other taxes on sales and proceeds from the sale of trading properties.

Rental income from operating leases is recognised in income on a straight-line basis over the lease term. When the Group provides incentives to its customers, the cost of incentives are recognised over the lease term, on a straight-line basis, as a reduction of rental income.

Notes forming part of the financial statements for the year ended 31 December 2022 (Continued)

1.3 Revenue recognition (Continued)

Where there has been a change in the scope of a lease or the consideration for a lease that was not part of the original terms and conditions of that lease, this is accounted for as a lease modification. This treatment applies to cases where rent reductions have been agreed, as has been the case in the COVID-19 related rent concessions granted by the Group during the period, however the total value of concessions granted is immaterial.

Income from property, which is derived from the rental of property held in the UK, is accounted for on an accruals basis.

Rent Smoothing Adjustments are not considered to be financial assets as the amounts are not yet contractually due. As such, the requirements of IFRS 9 (including the expected credit loss model) are not applied to those balances, although credit risk is considered in the determination of the fair value of the related property.

Cash flows from rental income are included in the cash flow statement within cash flows from operating activities.

Fee income from the provision of property development and other ancillary and related advisory services is recognised as the Group becomes entitled to that income, which is typically as development costs are incurred. Management fee income charged to related parties is recognised when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the entity and specific criteria have been met. This is typically as the services are provided.

Proceeds from the sale of trading properties are recognised when the Group has an unconditional right to receive the income, which is typically on the exchange of a contract.

Finance income and costs are recognised in the statement of comprehensive income for all interestbearing instruments on an accruals basis, unless collectability is in doubt.

Dividends income from investments is recognised when the Group's right to receive the payment is established, which is generally when shareholders approve the dividend.

1.4 Foreign currency translation

a) Functional and presentation currency

The Group's financial results and financial position are measured in the functional currency. Accordingly, items included in the financial statements are measured using the currency of the primary economic environment in which the Group operates.

b) Transactions and balances

Transactions denominated in foreign currencies (currencies other than the functional currency) are translated to the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the income statement.

Notes forming part of the financial statements for the year ended 31 December 2022 (Continued)

1.5 Borrowing costs

Interest costs are charged against income without restriction. The Group does not incur any other interest costs that qualify for capitalisation under IAS 23 Borrowing Costs.

1.6 Investment property

Property held for long-term rental yields which is not occupied by the Group is classified as investment property. Investment property principally comprises land and buildings. Investment property is treated as a long-term investment and is carried at fair value, determined annually.

Fair value is the estimated price that should be received for selling an investment property in an orderly transaction between market participants at the measurement date and is based on active market prices, adjusted, if necessary, for any difference in the nature, location or condition of the specific asset. Under IAS 40 Investment Property, changes in fair values are recorded in the statement of comprehensive income.

Property that is being constructed or developed for future use as investment property is also classified as investment property and stated at fair value in accordance with IAS 40.

When the Group decides to dispose of an investment property without development, it continues to treat the property as an investment property. Similarly, if the Group begins to redevelop or refurbish an existing investment property for continued future use as investment property, it remains as an investment property.

Depreciation is not provided for in respect of investment properties.

Acquisitions and disposals of investment properties are recognised on unconditional exchange of contracts where it is reasonable to assume at the balance sheet date that completion of the acquisition or disposal will occur. Gains on disposal are determined as the difference between net disposal proceeds and the carrying value of the asset in the previous published balance sheet adjusted for any subsequent capital expenditure or capital receipts.

Where an investment property is held under a leasehold interest, the headlease is initially recognised as an asset at cost plus the present value of minimum ground rent payments. The corresponding rental liability to the head leaseholder is included in the balance sheet as a finance lease obligation. Cash flows arising under headleases are classified under financing activities in the cash flow statement.

1.7 Fixtures and fittings

All fixtures and fittings are recorded at historical cost.

Depreciation is calculated on the straight-line method to write off the cost of the assets to their residual values over their estimated useful life as follows:

Fixtures and fittings - 33.33% per annum

Fixtures and fittings are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash generating units).

Gains and losses on disposal of fixtures and fittings are determined by reference to their carrying amount and are taken into account in determining operating profit.

Notes forming part of the financial statements for the year ended 31 December 2022 (Continued)

1.7 Fixtures and fittings (Continued)

Leases in which substantially all the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments made under operating leases are charged to profit or loss on a straight-line basis over the period of the lease. Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee.

Assets held under finance leases are recognised at the lower of their fair value at inception of the lease and the present value of the minimum lease payments. These assets are depreciated on a straight-line basis over the shorter of the useful life of the asset and the lease term. The corresponding liability to the lessor is included in the statement of financial position as a finance lease obligation.

Lease payments are apportioned between finance costs in the statement of comprehensive income and reduction of the lease obligation so as to achieve a constant periodic rate of interest on the remaining balance of the liability.

1.8 Financial assets

The Group classifies its financial assets into categories, depending on the purpose for which the asset was acquired.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as fair value through the profit or loss:

- the assets are held within a business model whose objective is to hold assets in order to collect contractual cash flows; and
- the contractual terms of the financial assets give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

If either of the above two criteria is not met, the financial assets are classified and measured at fair value through the profit or loss.

The Group's accounting policy for each category is as follows:

Fair value through profit or loss

The Group's financial derivative instruments that are in-the-money are carried in the statement of financial position at fair value with changes in fair value recognised in the statement of comprehensive income. The Group does not hold or issue derivative instruments for speculative purposes, but for hedging purposes which are not designated as hedging instruments. Other than these derivative financial instruments, the Group does not have any assets held for trading nor has it designated any financial assets as being at fair value through profit or loss.

Loans and receivables

These assets are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They arise principally through rental and service charge income from tenants (e.g. trade receivables), but also incorporate other types of contractual monetary asset. They are initially recognised at fair value plus transaction costs that are directly attributable to their acquisition or issue, and are subsequently carried at amortised cost using the effective interest rate method, less provision for impairment.

Notes forming part of the financial statements for the year ended 31 December 2022 (Continued)

1.8 Financial assets (Continued)

Impairment provisions are recognised when there is objective evidence (such as significant financial difficulties on the part of the counterparty or default or significant delay in payment) that the Group will be unable to collect all the amounts due under the terms receivable, the amount of such a provision being the difference between the net carrying amount and the present value of the future expected cash flows associated with the impaired receivable. For trade receivables, which are reported net, such provisions are recorded in a separate allowance account with the loss being recognised within revenue in the statement of comprehensive income. On confirmation that the trade receivables will not be collectable, the gross carrying value of the asset is written off against the associated provision.

The Group's loans and receivables comprise trade and other receivables and cash and cash equivalents in the statement of financial position. Receivables are carried at anticipated realisable value. An estimate is made for doubtful receivables based on a review of outstanding amounts at the year-end. Bad debts are written off during the year in which they are identified.

Cash and cash equivalents includes cash in hand, deposits held at call with banks, other short-term highly liquid investments with original maturities of three months or less, and for the purpose of the statement of cash flows, bank overdrafts. Cash and cash equivalents are carried in the statement of financial position at face value. Bank overdrafts are shown within loans and borrowings in current liabilities on the statement of financial position.

Measurement of Expected Credit Losses

The Group recognises loss allowances for expected credit losses (ECL) on financial instruments that are not measured at fair value through the profit or loss, namely:

· Trade and other receivables

The Group classifies its financial instruments into stage 1, stage 2 and stage 3, based on the applied impairment methodology, as described below:

Stage 1: for financial instruments where there has not been a significant increase in credit risk since initial recognition and that are not credit-impaired on origination, the Group recognises an allowance based on the 12-month ECL.

Stage 2: for financial instruments where there has been a significant increase in credit risk since initial recognition, but they are not credit-impaired, the Group recognises an allowance for the lifetime ECL.

Stage 3: for credit-impaired financial instruments, the Group recognises the lifetime ECL.

For trade receivables, the Group applies the simplified approach, which requires expected lifetime losses to be recognised from initial recognition of the receivables. To measure the expected credit losses, trade and other receivables assets have been grouped based on shared credit risk characteristics and the days past due.

A 12-month ECL is the portion of the ECL that results from default events on a financial instrument that are probable within 12 months from the reporting date. Provisions for credit-impairment are recognised in the statement of income and are reflected in accumulated provision balances against each relevant financial instruments balance.

In determining impairment of financial assets, judgement is required in the estimation of the amount and timing of future cash flows as well as an assessment of whether the credit risk on the financial asset has increased significantly since initial recognition and incorporation of forward-looking information in the measurement of ECL.

Notes forming part of the financial statements for the year ended 31 December 2022 (Continued)

1.9 Financial liabilities

The Group classifies its financial liabilities into one of two categories, depending on the purpose for which the liability was acquired.

Fair value through profit or loss

The Group's financial derivative instruments that are out-of-the-money are carried in the statement of financial position at fair value with changes in fair value recognised in the statement of comprehensive income. The Group does not hold or issue derivative instruments for speculative purposes, but for hedging purposes. Other than these derivative financial instruments, the Group does not have any liabilities held for trading nor has it designated any financial liabilities as being at fair value through profit or loss.

Other financial liabilities

Other financial liabilities include the following items:

- Bank borrowings and other loan are initially recognised at fair value net of any transaction costs directly attributable to the instrument. Such interest bearing liabilities are subsequently measured at amortised cost using the effective interest rate method, which ensures that any interest expense over the period to repayment is at a constant rate on the balance of the liability carried in the statement of financial position.
- Interest expense in this context includes initial transaction costs, as well as any interest payable while the liability is outstanding.
- Trade payables and other short-term monetary liabilities are initially recognised at fair value and subsequently carried at amortised cost using the effective interest method.

1.10 Fair value measurement hierarchy

IFRS 13 Fair Value Measurement requires certain disclosures which require the classification of assets and liabilities measured at fair value using a fair value hierarchy that reflects the significance of the inputs used in making the fair value measurement (see notes 3 and 12). The fair value hierarchy has the following levels:

- (a) quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1);
- (b) inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices) (Level 2); and
- (c) inputs for the asset or liability that are not based on observable market data (unobservable inputs) (Level 3).

The level in the fair value hierarchy within which the fair value asset or liability is categorised is determined on the basis of the lowest level input that is significant to the fair value measurement. Fair value assets and liabilities are classified in their entirety into only one of the three levels.

1.11 Share capital and share premium

Financial instruments issued by the Group are treated as equity only to the extent that they do not meet the definition of a financial liability. The company's ordinary shares and the associated share premium thereon are classified as equity instruments.

Notes forming part of the financial statements for the year ended 31 December 2022 (Continued)

1.12 Investment in group undertakings and other investments

Investments by the company in subsidiary undertakings are accounted for by the cost method of accounting. Provisions are recorded where, in the opinion of the directors, there is long term impairment in value. All such provisions and any subsequent reversals are recognised in the statement of comprehensive income in the period in which they are identified.

The results of subsidiary undertakings are reflected in the financial statements of the holding company only to the extent of distributions receivable.

On disposal of an investment, the difference between the net disposal proceeds and the carrying amount is charged or credited to the income statement.

Other investments are carried at fair value. Where fair value cannot be readily ascertained, the cost method of accounting is applied.

1.13 Subsidiary undertakings - consolidation

Where the company has control over an investee, it is classified as a subsidiary. The company controls an investee if all three of the following elements are present: power over the investee, exposure to variable returns from the investee, and the ability of the investor to use its power to affect those variable returns. Control is reassessed whenever facts and circumstances indicate that there may be a change in any of these elements control.

Subsidiaries are consolidated from the date on which effective control is transferred to the Group and are no longer consolidated from the date that control ceases. The purchase method of accounting is used to account for the acquisition of subsidiaries. All intercompany transactions, balances, and unrealised gains on transactions between Group companies are eliminated; unrealised losses are also eliminated unless cost cannot be recovered. Where necessary, accounting policies for subsidiaries have been changed to ensure consistency with the policies adopted by the Group.

1.14 Associates

Where the Group has the power to participate in (but not control) the financial and operating policy decisions of another entity, it is classified as an associate. Associates are initially recognised in the consolidated statement of financial position at cost. The Group's share of post-acquisition profits and losses is recognised in the consolidated statement of comprehensive income, except that losses in excess of the Group's investment in the associate are not recognised unless there is an obligation to make good those losses.

Profits and losses arising on transactions between the Group and its associates are recognised only to the extent of unrelated investors' interests in the associate. The investor's share in the associate's profits and losses resulting from these transactions is eliminated against the carrying value of the associate.

Any premium paid for an associate above the fair value of the Group's share of the identifiable assets, liabilities and contingent liabilities acquired is capitalised and included in the carrying amount of the associate. Where there is objective evidence that the investment in an associate has been impaired the carrying amount of the investment is tested for impairment in the same way as other non-financial assets.

1.15 Goodwill

Goodwill represents the future economic benefits arising from a business combination that are not individually identified and separately recognised. Goodwill is initially determined in accordance with the policy set out in note 1.15 and subsequently carried at cost less accumulated impairment losses. Impairment is tested in accordance with the policy set out in note 1.18.

Notes forming part of the financial statements for the year ended 31 December 2022 (Continued)

1.16 Deferred taxation

Deferred income tax is provided using the liability method, for all temporary differences arising between the tax bases of assets and liabilities and their carrying values for financial reporting purposes.

Deferred tax assets are recognised only to the extent that future taxable profit will be available such that realisation of the related tax benefit is probable.

1.17 Provisions

Provisions are recognised for liabilities of uncertain timing or amount that have arisen as a result of past transactions and are discounted at a pre-tax rate reflecting current market assessments of the time value of money and the risk specific to the liability.

1.18 Impairment of assets

Assets, including land, that have an indefinite useful life are not subject to amortisation and are tested annually for impairment. Assets that are subject to amortisation or depreciation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the assets carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an assets fair value less cost to sell and value in use. For the purpose of assigning impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows.

1.19 Trading properties

Properties that are held for future sale are classified as trading properties and are initially recognised at cost. They are subsequently carried at the lower of cost and net realisable value. Cost comprises all costs of purchase, and any costs of subsequent development. Net realisable value is the estimated selling price in the ordinary course of the business less cost to complete and selling expenses.

1.20 Defined contribution pension obligation

A defined contribution plan is a pension plan under which fixed contributions are paid into a pension fund and the group has no legal or constructive obligation to pay further contributions even if the fund does not hold sufficient assets to pay all employees the benefits relating to employee service in the current and prior periods.

Contributions to defined contribution plans are recognised as employee benefit expense when they are due. If contribution payments exceed the contribution due for service, the excess is recognised as a prepayment.

Notes forming part of the financial statements for the year ended 31 December 2022 (Continued)

2 Critical accounting estimates and judgements

The Group makes certain estimates and assumptions regarding the future. Estimates and judgements are continually evaluated and based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. In the future, actual experience may differ from these estimates and assumptions. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below:

Estimates and assumptions

(a) Valuation of investment properties and net realisable values of trading properties

The Group obtains valuations performed by external valuers or its managing agent, Commercial Estates Group Limited (CEG), in order to determine the fair value of its investment properties and the net realisable value of certain of its trading properties. These valuations are based upon assumptions including future rental income, anticipated maintenance costs, future development costs and the appropriate discount rate. The valuers also make reference to market evidence of transaction prices for similar properties.

Further information in relation to the valuation of investment property is disclosed in note 12.

(b) Valuation of non-equity accounted investments

Valuations are based on the underlying net asset values which may themselves be based on investment property valuations performed in accordance with (a) above.

(c) Valuation of interest-rate swaps

In respect of derivative financial instruments, the directors have relied on the valuation carried out by issuing banks and further information is set out in note 21.

3 Financial instruments - Risk management

3.1 Financial risk factors

The Group is exposed through its operations to the following financial risks:

- Credit risk;
- · Liquidity risk; and
- Interest rate risk

In common with all other businesses, the Group is exposed to risks that arise from its use of financial instruments. This note describes the Group's objectives, policies and processes for managing those risks and the methods used to measure them. Further quantitative information in respect of these risks is presented throughout these financial statements.

There have been no substantive changes in the Group's exposure to financial instruments risks, its objectives, policies and processes for managing those risks or the methods used to measure them from previous periods unless otherwise stated in this note.

Notes forming part of the financial statements for the year ended 31 December 2022 (Continued)

3.1 Financial risk factors (Continued)

Principal financial instruments

The principal financial instruments used by the Group, from which financial instrument risk arises are as follows:

- Trade and other receivables;
- Cash at bank;
- Trade and other payables;
- Bank loans; and
- Interest rate swaps

A summary of the financial instruments held by category is provided below:

Financial assets - loans and receivables

The Board has overall responsibility for the determination of the Group's risk management objectives and policies. The Board receives quarterly reports through which it reviews the effectiveness of the processes put in place and the appropriateness of the objectives and policies it sets.

The overall objective of the Board is to set policies that seek to reduce risks as far as possible without unduly affecting the Group's competitiveness and flexibility. Further details regarding these policies are set out below:

(i) Credit risk

The Group's exposure to credit risk arises from the potential financial loss if a tenant or counterparty to a financial instrument fails to meet its contractual obligations. It relates principally to the Group's receivables from tenants and other third parties.

Trade and other receivables

The Group's activities focus exclusively in the UK and its exposure to credit risk, arising from trade and other receivables, is influenced by the individual characteristics of each tenant. The Group operates a policy whereby the credit worthiness of each tenant is assessed prior to lease or pre-lease terms being agreed. The process includes reviewing financial information in the public domain. In certain cases, the Group will require collateral in order to support these lease obligations. This usually takes the form of a rent deposit, parent company guarantee or a bank guarantee. Arrears are monitored on a weekly basis and a strategy for dealing with significant potential defaults is presented on a timely basis to the Board. Outstanding tenant balances are reviewed on a quarterly basis for impairment.

Notes forming part of the financial statements for the year ended 31 December 2022 (Continued)

3.1 Financial risk factors (Continued)

(ii) Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and the availability of funding through an adequate amount of committed credit facilities. The Group, of which this company forms part of, aims to maintain flexibility in funding by keeping committed credit lines available.

The Group's liquidity position is monitored on a daily basis. The liquidity position is reviewed quarterly by the Board of Directors.

The following table details the Group's remaining contractual maturity for its financial liabilities and financial assets held at amortised cost. The table has been drawn up based on the non-discounted cash flows of financial liabilities based on the earliest date on which the Group can be required to pay. The table includes both interest and principal cash flows.

	Carrying	Contractual	Due in	Due in	Due in	Due after
31 December 2022	amounts	cash flows	2023	2024	2025	2026
	£	£	£	£	£	£

	271,947,112	298,126,750	130,494,880	104,207,899	55,044,292	8,379,679

(iii) Interest risk

The Group uses interest rate swaps and similar instruments to manage its interest rate exposure on long-term borrowings (note 19). It also utilises short-term facilities provided by related parties at either variable or fixed rates of interest, but which carry no early repayment penalties should the Group decide to refinance the facilities (note 26).

3.2 Capital risk management

The directors of the company monitor the overall capital needs of the Group on an ongoing basis and formally on a quarterly basis the equity, debt and overall capital position of the Group as a whole. They monitor the Group's capital specifically by reviewing the bank debt loan to value and interest cover ratios, as well as the value of any uncharged assets within the Group. The Group ensures that the overall loan to value (being total bank debt divided by total assets) of the Group does not exceed that set down in the Group's banking arrangements.

Notes forming part of the financial statements for the year ended 31 December 2022 (Continued)

4 Segmental information and other operating income

During the current and preceding year, the Group operated in and was managed as one business segment, being property investment, with all properties located in the UK. The directors of the Group review quarterly reports which are prepared on a basis that aggregates the performance of all properties and focuses on total returns on the Group's capital.

Other income primarily relates to amounts received from the extension of long leaseholds, surrender premiums received from tenants and arrangement and draw down fees earned by on lending bond funds to other group members.

5 Administrative expenses

	Group 2022 £	Company 2022 £	Group 2021 £	Company 2021 £

	24,611,840	553,927	22,836,545	265,885

6 Staff costs

The aggregate payroll costs (including directors' remuneration) were as follows:

	Group 2022 £	Company 2022 £	Group 2021 £	Company 2021 £
Wages and salaries Amounts receivable under long term	9,930,987	102,771	8,861,753	104,661
Incentive plan	3,088,898	-	2,952,136	
	13,019,885	102,771	11,813,889	104,661
Social security costs Pension costs, defined contribution scheme	1,892,792 508,868	- -	1,449,416 466,510	-
	15,421,545	102,771	13,729,815	104,661

The long-term incentive scheme ("the Scheme") is a cash-based incentive plan for employees of the Group's subsidiary, Commercial Estates Group Limited. Under the Scheme directors and employees receive a right to future cash payments expressed as a holding of a number of long-term staff reward units ("reward unit"). The performance of the Scheme is tied to the annual percentage increase in the net asset value of all the portfolios under management by Commercial Estates Group Limited. The reward units have a vesting period on the anniversary of the third year.

Notes forming part of the financial statements for the year ended 31 December 2022 (Continued)

6 Staff costs (continued)

The average number of persons employed (including directors) during the year, analysed by category was as follows:

		Group 2022 £	Company 2022 £	Group 2021 £	Company 2021 £
	Directors Management and administration Property support	3 121 53	3 - -	4 112 55	4

Notes forming part of the financial statements for the year ended 31 December 2022 (Continued)

10 Taxation (Continued)

As at 31 December 2022, the Group had accumulated tax losses carried forward amounting to £113,417,573 (2021: £109,759,422) which do not expire. The related net deferred tax asset has not been recognised in the consolidated financial statements due to the uncertainty of the realisation of the tax benefits.

Deferred Tax

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and current tax liabilities and when the deferred tax assets and liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different group entities where there is an intention to settle on a net basis.

The Group is required to recognise a deferred tax liability in respect of unrealised gains on investment properties in the accounts for the year ended 31 December 2022. Capital gains arising on the sale of investment properties are subject to UK tax based on the valuation of the properties on 6 April 2019. No formal valuation was carried out at 6 April 2019 and therefore the estimated amount of deferred tax that has been recognised is based on the most recent director valuations, adjusted for capital expenditure on the properties and a proportion of value gained in the year arising from a combination of other factors.

Deferred tax is calculated in full on temporary differences under the liability method using a tax rate of 19.00%.

The amount of tax that may be payable in the future on the sale of any of the investment properties will be based on agreeing valuations at 6 April 2019 with HMRC.

Included within the carrying value of investment properties at 31 December 2022 is £5,403,282 (2021: £4,804,167) in respect of the smoothing of lease incentives over the contractual lease term. The difference between rents on a straight line basis and rents actually receivable is included within, but does not increase, the carrying value of investment properties. The effect of this adjustment on the revaluation movement is as follows:

	2022 £	2021 £
Revaluation movement Movement in rent smoothing adjustment Change in fair value of right of use asset	(33,401,159) (599,115) (1,906)	22,626,444 621,691 (14,489)
Revaluation movement in the income statement	(34,002,180)	23,233,645

Notes forming part of the financial statements for the year ended 31 December 2022 (Continued)

12 Investment properties (Continued)

Under the Group's accounting policy, in line with International Financial Reporting Standards, the carrying value of leasehold property is grossed up by the present value of minimum headlease payments. The corresponding liability to the head leaseholder is included in the balance sheet as a lease liability. The reconciliation between the carrying value of the investment properties and their Investment Director valuation is as follows:

	2022 £	2021 £
Carrying value Gross-up of headlease liabilities	275,307,132 (3,376,132)	323,519,036 (3,243,036)
Investment Director valuation	271,931,000	320,276,000

Investment properties held at 31 December 2022 have either been valued at fair value by the Investment Director of Commercial Estates Group Limited or externally by Allsops and Avison Young. At 31 December 2022, the total fair value of the properties was estimated to amount to £271,931,000 (2021: £320,276,000).

As at 31 December 2022, the Group's investment properties were pledged as collateral for borrowings. The banking facilities stipulate defined amortisation payments from the proceeds of sale of an investment property.

	Fair Value at 31/12/22	Valuation techniques	Unobservable inputs	Range (Weighted Average)
Offices	138,980,000	Yield methodology	ERV per sqft (£) Capitalisation rate	14.88-86.15 (28.69) 6.84%-19.59% (8.44%)
Industrial	80,400,000	Yield methodology	ERV per sqft (£) Capitalisation rate	3.55-88.48 (54.93) 5.70%-8.76% (6.14%)

Total	271,931,000			

Notes forming part of the financial statements for the year ended 31 December 2022 (Continued)

12 Investment properties (Continued)

	Fair Value at 31/12/21	Valuation techniques	Unobservable inputs	Range (Weighted Average)
Offices	169,300,000	Yield methodology	ERV per sqft (£) Capitalisation rate	15.00-76.94 (28.03) 6.38%-18.48% (8.38%)
Industrial	86,425,000	Yield methodology	ERV per sqft (£) Capitalisation rate	3.19-80.22 (46.24) 6.39%-8.49% (7.03%)
Investment property in the course of or intended for redevelopment	64,551,000	Capitalised net revenues less cost to complete		

Total **320,276,000**

The investment properties have been valued using a yield methodology approach using unobservable inputs (level 3). The investment properties which are in the course of or intended for redevelopment are valued at capitalised net revenue less cost to complete. The significant unobservable inputs used in the valuation at 31 December 2022 are the estimated rental value (ERV) of the property and the market capitalisation rate (yield).

The ERV has been determined by reference to rents currently achieved on existing leases and the rents being asked by landlords advertising properties of a similar specification in that geographical region. The market capitalisation rate has been determined by reference to actual market transactions for properties in that region, with adjustment made to reflect the particular characteristics of the property. The resulting valuations are then cross checked against the initial yields and the fair market values per square foot derived from these actual market transactions. A decrease in the ERV or an increase in the market capitalisation rate will decrease the fair value of the investment property.

The Group's trading properties are carried at the lower of cost and net realisable value. The net realisable value as at 31 December 2022 has been arrived at on the basis of the valuation carried out by the Investment Director of Commercial Estates Group Limited or externally by Allsops.

The movement in provision during the period arose as a result of the net realisable value, as valued by Allsops, of one of the Group's trading properties being lower than the carrying value as at 31 December 2022.

Net realisable value is the estimated selling price in the ordinary course of business less costs to complete redevelopment and selling expenses.

As at 31 December 2022, the Group's trading properties were pledged as collateral for borrowings. The banking facilities stipulate defined amortisation payments from the proceeds of sale of a trading property.

The historical cost of investments in associates is £71,821,818 (2021: £43,562,081). The Group is entitled to a share of profits and voting rights in the following entities and also has the right to veto certain types of resolutions. The directors consider that they have the power to exercise significant influence over these entities without having a controlling interest. They have therefore treated them as associates and have equity accounted for them in the consolidated financial statements.

The Group's principal associates at 31 December 2022 are set out below:

Name	Country of Incorporation	Proportion of beneficial interest
CEG Land Promotions I (Holdings) BV	Netherlands	33.33%*
CEG Strategic Land (Malta) Limited	Cyprus	50.00%*
CEG Land Promotion's II Holdings Limited	Cyprus	20.00%*
CEG Land Promotions III (UK) Limited	England and Wales	33.33%

18 Trade and other receivables (Continued)

Fair value approximates to book value at 31 December 2022 and 2021 as credit risk has been addressed as part of the impairment provisioning and due to the receivables not being subject to ongoing fluctuations in market rates as a result of their short-term nature.

The Group applies the IFRS 9 simplified approach to measuring expected credit losses using a lifetime expected credit loss provision for trade receivables. To measure expected credit losses on a collective basis, trade receivables are grouped based on similar credit risk and ageing. The expected loss rates are based on the Group's historical credit losses experienced over the three year period prior to the period end. The historical loss rates are then adjusted for current and forward-looking information on macroeconomic factors affecting the Group's tenants.

Internal discussions between the directors, head of investment and investment managers, who deal with tenants on a regular basis, take place weekly to determine what provisions, if any, need to be made as a result of future expectations. Items of relevance in the current economic environment is the on-going conflict in Europe. No other macro-economic factors are deemed to be material at this time.

Where a tenant has been identified as high risk of non-payment, 100% of arrears has been provided for regardless of age. The main factors considered in determining which tenants are high risk are those that have arrears between 30 days past due and more than 180 days past due and where no future payment plan has been agreed.

As at 31 December 2022 the lifetime expected loss provision for trade receivables is as follows:

	Current	More than 30 days past due	More than 60 days past due	More than 90 days past due	More than 120 days past due	More than 150 days past due	More than 180 days past due	Total
Expected loss rate (%) Gross	2.5%	26.8%	35.3%	44.8%	55.2%	63.6%	100.0%	
carrying amount* (£) Loss	1,622,757	(13,847)	4,120	86,129	15,539	3,924	150,305	1,868,927
provision (£)	39,787	(3,706)	1,455	38,578	8,579	2,494	150,305	237,492

^{*} Gross carrying amount used in the provision matrix excludes certain balances such as purchase ledger debits.

Notes forming part of the financial statements for the year ended 31 December 2022 (Continued)

18 Trade and other receivables (Continued)

As at 31 December 2021 the lifetime expected loss provision for trade receivables is as follows:

	Current	More than 30 days past due	More than 60 days past due	More than 90 days past due	More than 120 days past due	More than 150 days past due	More than 180 days past due	Total
Expected		•	-	-	-	•	•	
loss rate (%) Gross carrying	2.5%	26.8%	35.3%	44.8%	55.2%	63.6%	100.0%	
amount* (£) Loss provision	215,710	29,020	1,491	43,194	6,463	23,394	342,721	661,993
(£)	5,287	7,767	527	19,347	3,568	14,869	342,721	394,086

^{*} Gross carrying amount used in the provision matrix excludes certain balances such as purchase ledger debits.

At 31 December 2022, £202,953 trade receivables had lifetime expected credit losses of the full value of the receivables.

19 Loans and borrowings

The book value of loans and borrowings are as follows:

	Group 2022 £	Group 2021 £	Company 2022 £	Company 2021 £
Non-current				
Bank loans – secured	9,200,905	101,088,101	-	-
Bank loans – unsecured	46,872,203	47,994,114	-	-
Promissory notes – unsecured	-	1,575,111	-	-
Current				
Bank loans – secured	153,135,060	77,031,768	-	-
Promissory notes – unsecured	1,650,562	1,575,111	-	-
Total loans and borrowings	210,858,730	229,264,205	-	-
The ageing analysis of these loans and	borrowings is as folk	ows:		
			2022 £	2021 £
Less than one year		1:	54,785,622	78,606,879
From one to five years		;	56,073,108	148,746,670
After five years			-	1,910,656
Total loans and borrowings		2	10,858,730	229,264,205
		<u>-</u>		

Notes forming part of the financial statements for the year ended 31 December 2022 (Continued)

19 Loans and borrowings (Continued)

Fair value approximates to book value at 31 December 2022 and 2021 as the interest payments on the majority of the Group's loans and borrowings are linked to SONIA and therefore any fluctuations in market rates will be reflected in the future cash flows of the loans.

The bank loans are secured by property mortgages and floating charges over the properties of the Group with a mandatory break at the end of the bank loan facilities.

The Group had the following loans outstanding as at 31 December 2022: £52,312,500 expiring in less than one year at a margin of 2.30% plus SONIA and secured by a fixed charge over property held by Dooba Investments II Limited; £20,000,000 expiring in less than one year at a margin of 8.00% plus LIBOR and secured by a fixed charge over property held by Dooba Investments II Limited; £64,733,579 expiring in less than one year at a margin of 1.93% plus SONIA secured by a fixed charge over property held by Dooba Investments III Limited, Carlyon Bay Limited Partnership and KirkstallForge Investment Property I Limited. £9,073,065 expiring in October 2027 at a fixed rate of 2.63% secured by a fixed charge over property held by GMV Twelve Limited; £1,826,548 expiring in March 2025 at a fixed rate of 2.50% secured by a fixed charge over property held by Kirkstall Development I Limited and Kirkstall Development II Limited; £14,390,272 expiring December 2023 at a fixed rate of 8.00% secured against future land receipts of Ampersand Homes Limited; £46,872,203 unsecured bond expiring October 2024 at a fixed rate of 5.00%.

20 Trade and other payables

Trade and other payables	Group 2022 £	Company 2022 £	Group 2021 £	Company 2021 £
Trade payables Other payables Amounts owed to related undertakings Accruals	5,785,978 28,546,798 1,902,580 5,966,237	174,266 4,985,005 13,251,191 105,489	2,774,853 31,902,849 1,902,000 4,390,516	4,961,008 18,426,123 63,394
Total financial liabilities, excluding loans and borrowings, classified as financial liability measured at amortised cost	42,201,593	18,515,951	40,970,218	23,450,525
Tax and social security Corporation tax Deferred income	910,219 306,032 2,363,886	- - -	1,838,388 273,973 2,704,240	- - -
Total trade and other payables	45,781,730	18,515,951	45,786,819	23,450,525

Due to the short-term nature of the payables, they are not subject to ongoing fluctuations in market rates, and so the fair value approximates to book value at 31 December 2022 and 2021.

Maturity analysis of the financial liabilities, excluding loans and borrowings, classified as financial liabilities measured at amortised cost, is as follows (the amounts shown are undiscounted and represent the contractual cash flows):

	Group	Company	Group	Company
	2022	2022	2021	2021
	£	£	£	£
Up to 3 months	42,201,593	18,515,951	40,970,218	23,450,525

Trade payables are interest free and have settlement dates within one year.

Notes forming part of the financial statements for the year ended 31 December 2022 (Continued)

21 Derivative financial instruments

At 31 December 2022, the Group uses derivative financial instruments to manage its exposure to interest rate movements on its interest bearing loans and borrowings. The fair value of these instruments is recorded in the statement of financial position and is determined by the issuing banks.

Derivative financial liabilities – Interest rate swaps and caps

Derivative ilitaticiai liabilities – Interest rate swaps and caps	2022 £	2021 £
Fair value at 1 January Disposals	332,810	3,301,351
Fair value movement	(332,810)	(2,968,541)
Fair value at 31 December	<u>-</u>	332,810
Derivative financial assets – Interest rate swaps and caps		
	2022	2021
	£	£
Fair value at 1 January	950,411	(3,003,747)
Disposals	(7,837,000)	-
Fair value movement	15,008,055	3,954,158
Fair value at 31 December	8,121,466	950,411

At 31 December 2022, the Group has £108,786,509 of interest rate derivatives in place as detailed below, which swap SONIA for a fixed rate and have a mandatory break at the end of each related bank loan facility:

Interest Rate Swaps	Benchmark	Interest Rate	Maturity
£43,132,404	SONIA	1.22%	18 October 2027
£65,654,105	SONIA	0.74%	21 December 2023

During the year, the Group cancelled in part one of its interest rate swaps, reducing the notional value from £70,000,000 to £65,654,105 and reducing the term from 21 December 2026 to 31 December 2023. Upon cancellation the Group received a settlement payment of £7,837,000. Any gains realised on the cancellation of the swap are included within the change in fair value of derivative financial instruments within the Statement of Comprehensive Income.

24 Reserves

Reserves Description and purpose

Share premium Amount subscribed for share capital in excess of nominal value.

Other reserves Difference between the equity holdings of the company and GMV Holdings

Limited at the date that the company acquired this entity through a transaction under common control, capital contributions received from shareholders as well as any distributions to shareholders in respect of certain preference shares

issued within the Group (see note 10).

Retained earnings Cumulative net gains and losses recognised in the statement of

comprehensive income.

25 Leases

Operating leases - lessor

The Group earns rental income by leasing its investment and development properties to tenants under non-cancellable operating leases. The properties are let to tenants for a fixed period at a market rate. Standard lease provisions include service charge recovery and rent reviews. On review, rents are increased either by contractual formula or to current market rent (estimated rental value). Typically, single let properties are leased on terms where the tenant is responsible for repairs, insurance and running costs, while multi-let properties are leased on terms which include recovery of share of service charge, expenditure and insurance.

Future minimum lease payments receivable by the Group from such leases were as follows:

	2022 £	2021
Minimum rents receivable:	_	2
Within one year	11,722,369	12,354,163
From one to five years	33,555,655	33,319,759
After five years	38,215,515	29,853,830
	83,493,539	75,527,752

Notes forming part of the financial statements for the year ended 31 December 2022 (Continued)

26 Related party transactions

Companies forming part of the Dooba Holdings Limited group are considered by the directors to be related parties as these companies have the same ultimate controlling party.

Transactions with related parties are entered into on a regular basis as a result of normal commercial transactions.

At 31 December 2022 CEG Land Promotions II Limited (a subsidiary of CEG Land Promotions II Holdings Limited) owed £1,449,800 (2021: £1,250,000) to Dooba (Gibraltar) Holdings Limited. CEG Strategic Land (Malta) Limited was owed £1,902,000 (2021: £1,902,000) by Dooba (Gibraltar) Holdings Limited.

Notes forming part of the financial statements for the year ended 31 December 2022 (Continued)

26 Related party transactions (Continued)

Associates CEG Investments III LLP and ASE II F&F LLP also owed £6,400,000 (2021: £6,400,000) and £nil (2021: £22,927,551) respectively to Dooba Properties Limited. Interest received of £3,475,875 (2021: £3,391,452 payable) was receivable by the Group in respect of the loans due from CEG Investments III LLP, ASE II F&F LLP and ASE III F&F LLP during the year. No interest was receivable in respect of the other balances.

Included within amounts due from related undertakings in note 18 is £61,875,630 (2021: £59,263,044) due from the Dooba Settlement which owns the shares in Dooba Holdings Limited. This loan is subject to interest at Barclays base lending rate and interest receivable of £2,612,586 (2021: £1,581,800) was earned on this loan in the year. Also included within other debtors in note 18 are interest free loans totalling £2,526,546 (2021: £2,490,535).

During the year loans made to the Group by the directors of CEG. The director loans were subject to interest at 3% and were £4,022,081 (2021: £5,244,747) at year-end.

During the year £3,524,999 preference shares in Dooba Investments Limited were redeemed by the main beneficiary. At 31 December 2022 the value of the redeemable preference shares was £12,206,963 (2021: £15,027,966). This is made up of £11,089,290 capital (2021: £13,990,421) and accrued interest payable of £1,117,673 (2021: £1,037,545). The preference shares are redeemable at any time on the election of the holder or the company and carry a cumulative dividend of 2.5%. The balance of the original loan of £11,863,088 remains in other reserves on the balance sheet.

27 Cash and cash equivalents

	Group 2022 £	Company 2022 £	Group 2021 £	Company 2021 £
Cash available on demand Restricted cash (Note 21)	4,905,368 7,837,000	32,828	22,987,544	1,940,049
	12,742,368	32,828	22,987,544	1,940,049

During the year, the Group cancelled in part one of its interest rate swaps, reducing the notional value from £70,000,000 to £65,654,105 and reducing the term from 21 December 2026 to 31 December 2023. Upon cancellation the Group received a settlement payment of £7,837,000. At 31 December 2022, the settlement payment was held as restricted cash to be applied against one of the Group's outstanding loans.

29 Events subsequent to the reporting period

In April 2023, the National Westminster Bank plc facility was extended by 3 months to July 2023. Advanced discussions are underway to refinance the current National Westminster Bank plc and Lloyds Banking Group plc facilities. The directors are confident that new facilities will be in place prior to the expiry of these facilities. Further details are included in note 1.
